RAPPOPORT FREE CONFERENCE CALL

APRIL 26, 2010. I've received so many responses to my articles about my new LOGIC AND ANALYSIS home-school course, I've decided to invite everyone to a free conference call.

For an hour and a half, I'll lay out all the basics of the course and answer as many of your questions as I can.

Please tell any friends or contacts you have in the home-school community about this call. I really want to get the word out.

There is no sign-up process. It's first-come, first-served. Limit of 150 people on the call.

DATE: TUESDAY, MAY 4. TIME: 6:30PM, PACIFIC TIME

DIAL-IN NUMBER: 1-219-509-8111

PASSCODE: 5730661

You just call in a few minutes early, the operator asks you to enter the passcode, and you're on the call.

It turns out, in this day and age of massive information, people are hungry to learn logic and use it. Teaching it to young students is a marvelous way to launch their lives along a strong and effective track.

In my 25 years as a journalist and teacher, I've seen what happens when logic is taught well. These are tools for a lifetime of use.

I'll talk to you on the call.
