Feb 18, 2016

## INTRODUCTION

Welcome to The Solari Report.

Today is Feb 18, 2016.

I am Catherine Austin Fitts and I am delighted that you could join me this evening.

## EVENTS –

**Tuesday – Coast to Coast**

[Caravan To Midnight - John B Wells Program](#)

[Lunch with Richard Dolan – April 30 in New York City](#)

**THEME TONIGHT:** "The Future is What's Coming For Us "

This last week the future was rushing like a raging river with one crashing wave after another. Best to keep paddling while you keep your eyes to see what is coming up around the bend.

A great line from a song by Leonard Cohen is” There is a crack in everything, that’s how the light gets in” As tensions frayed, we say the official reality showing cracks, with lights pouring through.

For example, Ben Carson in the Republican debate

“People need to know that free college is not a non-starter. You know, you have to look at our economic situation. We’re on the verge of economic collapse and, you know, we’re — it’s not just the \$19 trillion, but it’s also the \$200 trillion in unfunded liabilities.

What we need to think about is, what does that do to the average person? When we have a debt of that nature, it causes the Fed to change their policy, it causes the central bank to keep the — the rates low, and who does does that affect? Mr. Average, who used to go to the bank every Friday and put part of his check in the bank and watch it grow over three decades and be able to retire with a nice nest egg, that’s gone. That part of the American dream is gone.”

Every time you turn around, the official reality is cracking.

## **Hero: Justice Scalia**

Chances that it was an assassination: very high

1. No autopsy – my understanding is required by Texas law
2. Washington Post article – raising questions – very out of character – Washington-ese for “we smell a rat”

Why?

1. Push for a Constitutional Amendment or Convention
2. Clean Power Plan – stay in the prior week
3. Gun Control

Obama: not going to funeral – another “fall off my chair with a gasp” – shocking move.

Conference cancelled in Oregon – including Cynthia McKinney – speakers concerned for their safety – Finicum, Scalia,

*The warning, more than a century ago, attributed to Daniel Webster, remains as timeless as the document he revered. “Miracles do not cluster,” he said, “Hold on to the Constitution of the United States of America and to the Republic for which it stands—what has happened once in 6,000 years may never happen again. Hold on to your Constitution, for if the American Constitution shall fall there will be anarchy throughout the world.” ~ President Ronald Reagan, at the swearing in for Justice Scalia*

Importance of reaffirming the covenant

“The Revolution was effected before the War commenced. The Revolution was in the minds and hearts of the people; a change in their religious sentiments of their duties and obligations. This radical change in the principles, opinions, sentiments, and affections of the people, was the real American Revolution.” –John Adams, 1818

Solutions: enforcing the existing constitution NOT amending it

Starting with No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law; and a regular Statement and Account of the Receipts and Expenditures of all public Money shall be published from time to time.

ARTICLE I, SECTION 9, CLAUSE 7

Solutions: enforcing the existing constitution by creating the conditions where the people who enforce it do not have to worry about their personal safety and the personal safety of their families.

The first train connecting Iran and China loaded with Chinese goods arrived in Tehran Monday, reviving the ancient Silk Road trade route and highlighting the economic possibilities for Iran since the lifting of international sanctions, [AFP reports](#). The 5,900-mile trip from eastern Zhejiang province took 14 days, or 30 days less than a typical sea voyage between Shanghai and the Iranian port of Bandar Abbas, according to the head of the [Iranian railway company](#), Mohsen Pourseyed Aqayi.

Two commentaries this week:

### [Unanswered Questions: Hillary Clinton & the African American Community](#)

WSJ: Why criminal justice reform could be a breakout issue for 2016

The takeaway from our results is that criminal justice issues have evolved in the public consciousness. First there was discussion of the problems of crime and drugs. Next, solutions were offered. Then those solutions were implemented, and implementation created new problems. In 1986, it cost nearly \$30 billion to incarcerate approximately 800,000 people in local, state, and federal jails and prisons. By 2010, [the costs had risen to \\$80 billion](#) to keep 2.3 million behind bars. We found that people agreed with the premise that too much is spent to jail too many nonviolent offenders and that the current system does a poor job of rehabilitation. A majority of respondents think that less expensive alternatives could produce better outcomes.

Politics is a cynical business. But an issue has emerged in our acidic political environment that has achieved success in the states and is uniting Americans across the spectrum. Where voters go, their elected officials are sure to follow.

**HERO**

## **Hero: Justice Scalia**

*The warning, more than a century ago, attributed to Daniel Webster, remains as timeless as the document he revered. “Miracles do not cluster,” he said, “Hold on to the Constitution of the United States of America and to the Republic for which it stands—what has happened once in 6,000 years may never happen again. Hold on to your Constitution, for if the American Constitution shall fall there will be anarchy throughout the world.” ~ President Ronald Reagan, at the swearing in for Justice Scalia*

### **Comment from Coast Listener – Scalia’s position on homosexuality**

What I care about – the primary rights that apply to all us. Property rights, privacy rights, enforcement of the constitution particularly with respect to government finances.

For my entire life time, I have watched divide and conquer issues being used to divide the electorate so a handful of people could destroy EVERYONE’s property rights, EVERYONE’s privacy rights and steal EVERYONE’s money.

So never bring up any of the divide and conquer issues to me – not because they are not important – but because you are letting your property rights, privacy rights and money be stolen and spitting on the people risking their lives to do

protect them – because you do not understand the real agenda here.

Please see the deeper game. Please.

Dear Catherine,

The Nanchang Solari Circle is in negotiation with the daughter of a local retired investment advisor/broker. He is now a day trader. We are trying to set up a meeting to help us gain an understanding of China's stock market and economy. We are still unsure if the meeting will happen or not. The tone of the meeting will be cultural exchange. Specifically, the culture of investment and economics. If it does happen, are there any questions you would like us to ask

and discuss with him?

Blessings,  
Nanchang, PRC

Catherine,  
What do you know about OneCoin? Are investments in this system unsafe?  
Thanks

I am a subscriber and have been a huge fan for a long time. I have listened to your interviews, read your blog and love your approach and your story. I have enjoyed the opportunity to share your work.

QUESTION TOO CONFIDENTIAL TO RESPOND

HERE, so found we are doing a backchannel on this one.

Dear Catherine:

If aliens are living among us here on our planet, do you believe that they may be influencing how our leaders are governing us?

YOU MUST BE KIDDING ME. THEY ARE  
INFLUENCING EVERYTHING.

Head of NASA referred to Earth as our “home planet” –  
maybe that is why they called it Homeland Security

Dear Catherine:

I greatly enjoyed meeting you at the "Lunch with Catherine" here in Southern California almost two years ago, and I hope to see you come back here again. At the same time, I notice that you visit Northern California fairly regularly, and I wonder why it is that you visit Northern California more regularly than Southern California.

Much large subscriber base in Northern California than Southern California and more personal and business ties.

## Let's Go to the Movies

In *Let's Go to the Movies*, I will review the documentary *Going Clear: Scientology and the Prison of Belief*

Kemp Tapes, Encounter with Scientologists – first Group lobbying on drugging children, the reading information an disclosures, then meeting leadership group in LA.

### FROM SUBSCRIBER

Just wanted to let you know on your website you have a link to the YouTube movie The prison of belief which is a commentary on Scientology. Just to let you know I have been at Scientologist for 40 years, it is been very valuable to me in too many ways to mention from business to personal enlightenment. I believe the movie to be fraudulent after watching it and do not think it accurately represents the Scientology religion as I have personally experienced this for a long time.

It always puzzles me when I see something like this and don't know who recommended putting it up or why it is there. Does this movie represent your viewpoint on the subject? if so, I would like to give you some real information that may change your outlook. If it is not your viewpoint then somebody else on tour staff or other must've recommended it. Before allowing something like this to represent ones viewpoint I always encourage people to study a subject themselves rather than take information from sources which I've noticed do not ever really talk about the substance or

subject matter of Scientology but only criticisms about it. Too bad, there's so much good information to be learned here, I would hate to turn somebody off to it based on false information, which I can tell you from my experience that this is.

Other than that, I love your site and very much appreciate your financial viewpoint. Hope you're doing well and get back to me on this,

[I believe the effort to try and interest me in an audit process was designed to create control files – given progression on Kemp tapes and particular circumstances and timing in litigation – turned very stuck and ugly.]

## INTERVIEW

*“With the US dollar still in correction mode one would think that commodities would be going through the roof like the precious metals complex but that’s not the case. It appears that everything but the precious metals complex is starting to gather momentum to the downside.”*

~ Rambus

This week on the *Solari Report*, Franklin Sanders of [The Moneychanger](#) joins me to take a look at precious metals markets:

- How gold and silver performed in 2015...and why.

- Performance to date in 2016...could the consolidation finally be over? Or is the current rally temporary as it was in early 2015?
- Storage options for gold and silver – subscribers have been sending questions about global and domestic depositories.

Franklin and I will review the likelihood that the primary trend in gold and silver is returning. Franklin has more confidence in the outlook for in 2016. I am concerned that the number of plausible and unpredictable scenarios are growing across all asset classes. So expect a lively discussion!

One thing is certain – the dramatic rise in gold and silver prices in the past two weeks indicates uncertainty across global economies and markets. Below are charts of gold and silver versus the S&P 500 and aggregate bond ETF (AGG) since January 1, 2009. We will post Franklin's charts in the subscriber area in this post on Thursday. Please make sure you login to access them as you listen to the interview audio. They will be posted in the final transcript.
