Most Telling: Fed proposed rule

Bloomberg:

The Federal Reserve proposed that so-called stays be included in contracts for derivatives and other financial instruments to prevent counterparties from immediately pulling collateral from a failed bank. The plan released Tuesday is meant to give authorities ample time to unwind a firm, hopefully heading off the frantic contagion that spread through markets in 2008 when Lehman Brothers Holdings Inc. toppled and its trading partners demanded instant payment on terminated contracts.

Industry groups representing firms such as Citadel LLC, BlackRock Inc. and MetLife Inc. have resisted efforts to rewrite financial contracts, arguing that it abuses investors' rights and could make things worse by encouraging trading partners to try to pull away from a bank at the first whiff of

trouble, even before a failure. But asset managers and insurers face a tough task in persuading the Fed to change course. Banks have already agreed to impose delays on deals with other lenders, and regulators insist the plan is key to their strategies for avoiding another crisis.

The Fed's proposal would expand the stays to more contracts, affecting any new agreement signed by eight of the biggest and most complex U.S. bank holding companies and the U.S. arms of major foreign banks. So, hedge funds and asset managers that want to keep doing business with such lenders would have to toe the line.

Fed Governor Daniel Tarullo said the rule is “another step forward in our efforts to make financial firms resolvable without either injecting public capital or endangering the overall stability of the financial system.”

THANKS FOR GREAT LINKS

Thank you I love your website.

I've just finished listening to the Update on global spraying with Clifford Carnicom and you mentioned the clarity of mental focus after you had done a heavy metal detox. Please tell me what you did and which products you found to be most natural to achieve the clarity.

Thank you.

Hello Catherine,

Detailed question about investment advice – can't do on the *Solari Report*

“Did you recommend to get out of stock market/”

Dear Catherine and Dr. Farrell:

Thank you so much for your recent wrapup discussion. You provide top level education we desperately need.

What I long for is this:

Examining in detail what Mr. Global is up to is the vital first step, IMO. Recommendations to withdraw from his grasping parasitic system must follow, as you continually encourage us to do.

However,

what are people withdrawing into? In other words, what is the nature of the new system, the new institutions and relationships we have to create to replace the corrupt ones we once took for granted but that are now being exposed and terrifying us in their desperation to complete their plans?

Dr. Farrell longs for a return to teaching the classics of Western culture.

He misses the values of civility and balanced discussion.

I recall that Catherine sees the small community as the garden where aware and compassionate people can create solutions that work for the community and not for the big banks far away.

But what is the new mindset, the new philosophy or world view that will replace the mindset that got us into this mess?

Can you describe it? We can easily describe the one we have: the service to self, materialistic, reductionist, elitist, centralizing etc. parasitic consciousness pervading every institution and media we have.

What will the new community look like - economically, educationally, governmentally, politically, etc.?

We have to get to this level of discussion and into creating rather than ever analyzing in greater detail what is wrong or what Global 3.0 looks like.

What do WE want the new world to look like?

Thank you for the courage and wisdom you bring to us every day.

Hi Catherine, you speak of Global 3.0 but what does that really mean when it comes to identifying companies to invest in?

Companies focused on producing Global 3.0 or integrating it? 2014 3rd Quarter Wrap up. Example: Space Based companies in annual wrap up.

Hi Catherine,

Extremely grateful to finally have been able to subscribe to Solari, as I have exhausted ALL of the 'free content'/interviews available on the internet.

I have recently come across a 'movement', if it can be called that, something called TimeBanking. I have not been aware of this until listening to OYMRadio who are in Ireland. I see this as a good thing for communities to exchange time for service in an equal exchange. However, what do you think about this concept beyond a crisis situation in order to 'barter' time and services, not used as a means of barter of products.

Excellent idea where you can catch hold – adds additional optimization – makes up some of the problems created by centralized currencies

Often fail – up against the smart phones and entrainment.

Here is the website I looked at from the interview I listened to on youtube,
OYMRadio, www.timebankingireland.ie

Here is the interview I listened to as well. <https://youtu.be/txTiywV6F4I> I am not wanting to share and 'spam' unintentionally, so IF these appears as links, perhaps searching for them would be a good idea as well.

Thanks again for all you do, and have learned so much from all of your hard work,
dedication to a better World and Humanity.

Take Care,

Hi Catherine...I recently subscribed to the Solari Report. I was wondering if there are any financial advisors you recommend who know how to navigate the investment world during these difficult times.

Don't recommend financial advisors on the *Solari Report* – same as not providing financial advice.

Hi Catherine,

I was listening to your interviews with Adam Trombly and both of you mentioned that use were revitalized and restored by using the QRS machine. I was thinking of purchasing it for myself and close family members. Do you still use the machine and do you still recommend it?

Thanks.

Blessings,

Hi Catherine:

Ted Bauman writes something below that makes me eager for your opinion on his predictions. How much is fear porn? Thanks.

Don't know Bauman's work, but it is not a good use of time to engage in prophesy and speculate on prophecy. TRAP to make you unproductive.

Future is unknowable.

Do scenario design and start focus on creating and attracting opportunities and real power.

Hero: David Talbot

Significance of The Devils Chessboard can not be overstated.

Dulles – CIA - Sullivan & Cromwell – Douglas Dillon-
Rockefellers –

What were the risks they were dealing with – and why could they not find a third way?

Story of their point of view has not yet been told.

WHY IS THIS COMING OUT NOW ?– HarperCollins
Owned by Fox – Murdoch doing many things like this

Almost everyone is long deceased...but family and
institutional brands and family wealth could be impacted:

Rockefellers

CIA

FBI

Joint Chiefs

Sullivan & Cromwell

Remarkable that it is coming out.

Let's Go to the Movies

In *Let's Go to the Movies*, I will review *The Good Shepherd*, a fictional account of the birth and growth of CIA counterintelligence. It tells the story of the culture and mentality that fostered the covert side of our world.

Made by Robert De Niro

CIA = Skull & Bones Yale Secret Society George H. W. Bush, John Kerry

it is advertised as telling the untold story of the birth of [counter-intelligence](#) in the [Central Intelligence Agency](#) (CIA). The film's main character, Edward Wilson (portrayed by Damon), is loosely based on [James Jesus Angleton](#) and [Richard M. Bissell](#).

Tries to tell some of the other side of the story – not so easy to run a unipolar or multipolar world.

Great scene brilliantly played by Joe Pesci and Matt Damon.

Joseph Palmi: Let me ask you something... we Italians, we got our families, and we got the church; the Irish, they have the homeland, Jews their tradition; even the niggers, they got their music. What about you people, Mr. Wilson, what do you have?

Edward Wilson: The United States of America. The rest of you are just visiting.

That is their point of view – most of us are visitors...or rather livestock – we have become as alien species to each other.

Former CIA Director George H. W. Bush was quoted recently as saying “Americans can’t handle the truth.”

That is why I say – all solutions require transparency. We are going to have to handle the truth.....

INTERVIEW

“Mankind must put an end to war before war puts an end to mankind.”

~ **John F. Kennedy**

By Catherine Austin Fitts

Former CIA Director George H. W. Bush was quoted recently as saying “Americans can’t handle the truth.” We disagree. The Solari Report team knows **you can handle the truth**. In our next Solari Report, we offer you a powerful discussion with one of the most courageous truth-tellers in our midst as he explains one of the most important truths to help you understand how the world works today.

David Talbot is the founder, former CEO and editor-in-chief of *Salon* magazine. Since leaving *Salon*, he has continued writing and publishing most notably on the Kennedy administration and assassination. His latest book, *The Devil’s Chessboard*, a biography of CIA Director Allen Dulles, was published in 2015, seven years after Talbot published *Brothers: The Hidden History of the Kennedy Years*.

Who arranged the assassination of John F. Kennedy in Dallas in 1963? Was it a lone gunman? Was it the Russians? Was it Fidel Castro? How about the Mob? Every lame explanation of that day has ultimately failed.

It was the Establishment that killed Kennedy — with Allen Dulles and the CIA at the very heart of organizing, executing and covering up the assassination. The conspiracy involved the full breadth of the “deep state” — segments of the military, the FBI, the Secret Service (and their boss, the Secretary of the Treasury) and the banking and investment centers in New York and Boston.

Once you digest the facts that Talbot lays out, you will never look at the US Establishment in quite the same way. Indeed, I asked one of my most astute allies to read the book. Weeks after finishing it he remarked, “You know, I look at the world differently now.” To which I responded, “Why, you already knew that the Establishment killed Kennedy.” He replied, “It is one thing to believe it. It is quite another to finally learn the facts.”
