

THE SOLARI REPORT

INTRODUCTION

Welcome to The Solari Report.

Today is July 7, 2016.

I am Catherine Austin Fitts and I am delighted that you could join me this evening.

EVENTS –

Zurich, Rhone Valley and Lake Constance in the second half of July, with one-day trip to Amsterdam.

[Lunch with Catherine in Amsterdam on July 26, 2016](#)

THEME TONIGHT: Power of Shunning

I want to talk about the power of shunning.

Inspired by the out of control lawlessness we are watching in the case of the Clinton e-mail investigation

FBI announced this week that Hillary Clinton was extremely careless in her management of e-mail, but were not recommending prosecution

Logic was twisted in the extreme. FBI said there was no intent to break the law. First of all, intent is not the standard. Second of all, installing a private server to use with classified e-mail while raising money from the same people and countries that State is handling underscores intent without a shadow of a doubt.

Followed a bizarre series of events where one ex-US official about to testify against Clinton appeared assassinated and the Attorney General Loretta Lynn met in secret with Bill Clinton.

For those of you who have not been to law school or become expert at civil and criminal procedure, for a sitting Attorney General to meet with the disbarred husband of a target of a criminal investigation is so beyond outrageous that it is difficult to describe words how bad it is. It is so outrageous that it prompted me to write the following letter to the White House on July 1st, before Clinton's interview with the FBI.

[Letter to the White House](#)

“Every election is a sort of advance auction sale of stolen goods.” ~H.L. Mencken

[CAF Note: IMO, we are watching multiple felonies being committed by the Attorney General, the Clintons and possibly their attorneys and staff members, not to mention the President. The lawlessness embodied in the process is exceptional.]

July 1, 2016

Dear President Obama:

The Attorney General of the United States just met in private with the target and husband of a target of an FBI criminal investigation. She should be fired.

If there is no law, we have no currency and no country.

Best Regards,

Catherine Austin Fitts

[Office of Professional Responsibility](#)

The upshot is that Attorney General Lynch apologized for doing it. Which is even more outrageous, given I believe that she committed one or more felonies.

Let me tell you what I think is going on

Bilderbergers 2008

Baker: She was just at State Department to run for President

Clintons had permission from the Bilderbergers to do what they were doing. Generated hundreds of millions for themselves and their friends but billions for syndicate, including many members of the

Bilderbergers. They were harvesting a turf for the syndicate.

Bilderbergers just met and confirmed their commitment to Clinton as Democratic nominee (my guess is too early to commit to Presidency – have to let it run and squeeze more deals and promise from both sides)

That left it to the Clintons and the President to implement

Kill witnesses – 1 that we know of

Jail witnesses – Romanian Hacker Gucifer

Have lynch brief B Clinton on how Clinton can handle the interview – so can skate the traps

Earlier this week: Lynch finds her Inner You-Know_What Trash

Inform FBI Director Comey of their decision

NY Times leads that Clinton is going to keep Lynch on

NY Times finds their Inner You Know What Trash

Following the FBI announcement

House:

Speaker Paul Ryan calls for Hillary Clinton to be denied access to classified information during the course of the presidential campaign because of what the FBI determined was reckless handling of information via email. AP

Clear implication is that Clinton will lead the classified information to raise money – and help Bill make large speaking fees and raise money for the Foundaiton – which indeed she will.

Brilliant move

House hearings – indicate they are requesting an FBI investigation of whether Clinton lied to Congress on e-mails.

Catching in imperfections of process – obstruction of justice charge.

Far from over:

Investigation into e-mails, Lying to Congress, Investigation into the Clinton Foundation may be happening, we are dug in for trench warfare.

Republicans – protect the Senate and House – must destroy Clinton – have the means and the wherewithal to do it.

Paint her as a liar and get the disapproval rating up to 80% - protect their seats no matter what happens to the Republican presidential candidate.

OK, so what does that all have to do with shunning?

The Clinton's have been allowed to engage in significant criminality for decades because it is fashionable. It is ok to vote for them. People want to be associated with them. I can not tell you how many people I know who are planning on voting for Clinton – they feel that this level of criminality is acceptable.

They have absolutely no empathy for the people who have been harmed or assassinated. Their support is shocking.

Shunning is historically very powerful – and has a powerful influence on both voters and the Bilderbergers.

This is all going to continue until we start putting our time and attention and our money behind ethical, competent leadership – in our lives, in our local areas, and stop backing the winner or the guy who gives us money.

IMO, we are watching flagrant, multiple felonies openly and by DOJ, White house and the Clintons – mob style

Their challenge is they are operating between two systems with two different sets of laws. The more politically powerful system is supposed to be kept a secret

But it is coming out of the closet. Recent e-mail Under Clinton – 23 mass shootings. Under Bush Jr., dropped down, under Obama 162 –

[Note Dallas – another mass shooting killing Dallas Police during protest of innocent black men killed by police in La and Minn – likely a professional hit – part of effort to get gun control – but may also be to distract from lawlessness and fighting in Washington – remember terrorism is the one thing that can cause the population to want Government]

The question is now “Why should I obey the law” – lets discern – lets obey the law with respect to the people who respect us and our rights and wherever practicable lets shun,

dump, reject and pull the rug out from the people who do not.

This is not 0 or 1

This is 0 for some, 1 for others.

Please learn how to Shun. It has immense power to shift the entire situation.

It is time to share a deep physical repulsion to criminality. It is not fashionable. It is destroying our culture and the lives and productivity of many fine people.

Get it out of your time, your attention and your money?

Whose your Sheriff? Start caring about that.

Dear Catherine and Dr. Farrell:

If Trump wins:

1. There will be a high level of retirements among members of Congress. This may occur to a lesser extent with a Clinton win.
2. Followed by an influx of fresh blood in Congress who are not devoted to the establishment paradigm and are united for bringing our government back into the control of the people.
3. The trend to disbelieve and overthrow establishment memes and power structures will make a leap in momentum.

Brexit is an expansion of consciousness and a very loud NO to our sorry state of mankind.

Brexit is the first announcement of the arrival of this shift in mankind's concepts.

NOW, Mr. Global is about to make a serious mistake:

He is going to punish Britain and attempt to intimidate the nations considering exiting the EU.

That punishment will become too public for Mr. Global to suppress and will add to the anger of the people (and those leaders who do have integrity) and their determination to rid themselves of the tyranny of the globalists and their agenda of One World Government.

What may push us completely out of the old and into the new:

One black swan event may well shock all of humanity out of the system established by Mr. Global. All of our wonderful technologies will become useless overnight, teaching us that we have gone too far down the road of turning our lives over to science in the service of corporations and big money.

Survivors will have the opportunity to restart civilization. There will be a war between the AI elites and the people. We have been prepared for this with many movies.

Question:

Will we receive assistance from friendly aliens?

or

will we have to fight the unfriendly aliens?

or both?

And what role will be played by the White Hats both in the Space Agency/military and on Earth?

and by the Globalist space power resisting them?

Preparing for the above seems obvious:

1. insuring food and water supply on a per family basis
2. establishing a system of trade/currency that is viable on local scale
3. organizing small units of community to provide needed skills for survival = pockets of enduring human beings.

Cheers,

Disagree with most of your interpretation of events agree on the importance of recommended preparations IF you can find trustworthy people to organize with. Have to do what you can do with the people you can trust.

Dear Catherine

I listen to Richard Dolan and have been wondering about the plight of Greece. He talks about the toxic loans they have been crippled with and have been wondering whether the lenders might be guilty of the same type of deception that has led to all the PPI claims?

Perhaps some clever lawyers could find a way of making these toxic loans illegal in hindsight and cause them to have to reimburse with compensation?

INTERVIEW

2nd QUARTER WRAP UP

Big one

News Trends and Stories – extra investment

Financial Wrap Up – why merging with Rambus

Productivity, Prosperity and the Popsicle Index – so many misunderstandings, I want to see if I can not create a framework that will help people see it.

Our **2nd Quarter Wrap Up** will be presented throughout July in four parts:

- **News Trends & Stories:** For the next two weeks we will chew through the top news trends and stories with Dr. Joseph Farrell. This coming week in **Part I**, we will look at *Economy and Financial Markets* and *Geopolitics*, including a serious discussion of Brexit. **Brexit is a clearly the story of the 2nd Quarter.**
- The following week in **Part II**, Dr. Farrell and I will cover the *Science and Technology* and *The Big Questions*. Make sure to check our web presentation for the complete listing of *News Trends & Stories* for the 2nd Quarter.
- **Financial Market Roundup:** In the third week, we will combine a written Blockbuster Chartology from master technician Rambus with Catherine's Equity Overview. Make sure to check our web presentation for the complete round up of financial market charts on June 30.
- **Productivity, Prosperity & the Popsicle Index:** Finally, our big theme. How do we blast through the Orwellian BS about productivity coming out of folks like Alan Greenspan? How do we get down to what needs to be done to integrate dazzling innovation with real human productivity and prosperity? We will post our discussion of the "real deal" on productivity and prosperity in our final week.

We Never Give Up!

At Solari, we never give up on the notion that genius can serve humanity as a whole. Indeed, our calculations indicate that the monopolists will be wealthier when it does. It's simple – free markets create far more wealth than fascism. Secrecy designed to protect national security ultimately creates privileges which destroys the very society the secrets were meant to protect.

As I have said many times before, now is not the time in the history of our people for a failure of imagination!

We will have an abbreviated *Money & Markets* next week, so post or e-mail your questions for Ask Catherine.

Talk to you on Thursday!
