

THE SOLARI REPORT

INTRODUCTION

Welcome to The Solari Report.

Today is July 21, 2016.

I am Catherine Austin Fitts and I am delighted that you could join me this evening.

EVENTS –

Lake Constance this week – in Southern Germany where Austria, Germany and Switzerland meet

Back in Zurich next week with a one-day trip to Amsterdam.

Hope to see you at - [Lunch with Catherine in Amsterdam on July 26, 2016](#)

THEME TONIGHT: Think Local – Swiss Democracy

Opportunity is local – see if you can find something locally that attracts your time out of the Presidential election – opportunity is to clean out the corruption one municipality, county at a time – starts by finding and supporting excellent local leadership - one subscriber recently wrote in to point out what hard time consuming work it is – trench warfare – never ending. That is true.

If you want some inspiration – study how the Swiss system of democracy works at the local canton level – it is an inspiring reminder of what is possible.

Civilization can work; we can be human; we can treat each other in respectful human ways.

Meeting with friends from NZ that have been traveling through Ireland, England, France and Germany. Their reflections - Comparison from Europe – much better infrastructure, much more human than US.
Europe is imploding at all.

US is certainly out to make Europe sound/seem like it is imploding.

See Michael Moore's film –where should we invade next? Reasonable comparison between Europe and places in US that are imploding. US in parts is imploding – 2.0 to 3.0

Immigration in Europe is a problem. How bad could it be?

Pension and retirement systems in trouble in both US and Europe are in trouble.

S&P Cuts Deutsche Bank Outlook To Negative On
“Challenging Operating Conditions”

Calls for bailing out the Italian banks.

How manage banks and debt holders problems through this is a major question

New piece from Laurence Kotlikoff in Forbes, SS deficit has increased \$6 trillion over the last year – may be the result of merging in of SS disability.

As Don Coxe said in SR earlier this year, expect retirement systems to be front and center.

This is a global problem – US, Europe, China

Money and Markets

Central bank commitment to all financial assets going up continues with US equity markets reaching record highs. New Post in the Telegraph – this is nationalization. Bank of Japan now owns app 10% of Japanese market.

Turkey Coup – Still not clear what happened:

Israel deal with Turkey on the Sunday prior to Coup
announced from Rome

Then Kerry goes to Moscow – White House makes no sense
when explaining why he is there

Then attempted Coup

Then Erdogan has names of thousands of military and judges
to fire immediately

Turkey = European energy/gas pipelines.

Republican Convention – Trump family is getting a lesson in political Sabotage

Melania Speech – retired CIA officer sabotage Gore's debate practice gave me a briefing on
how such things are done

Ted Cruz – amazed allowed to speak; wife Heidi – crowd yelling Goldman Sachs

Leaks:

Social Security

Steve Mcnichin for Treasury – Goldman Sachs – no secrets

Bottom line – across the spectrum – complete lack of responsibility to the whole – culture of
“every man for himself”

Now Trump finds himself in a position responsible for the whole – interesting to see how
he responds.

Only person behaving that way on the Republican side is Paul Ryan – watching him try to do so when no one else – not just in the Republican party but in America is astonishing.

Next up: Democratic Convention – this weekend with Clinton announce VP Choice with the Governor of Virginia currently considered most likely.

Wildcard:

Simon Parkes – establishment no longer committed to depopulation because mind control technology has been so effective.

I believe that is true – Cell tower build out from 2001 on – have been astonished at how well it has worked. Example – banks campaign in 2003 and 2004.

The more mind control you layer on, the more ridiculous the United States looks. Mind control technology is the defining characteristic of the 2016 election – as it was in the 2008 election. Just a much more fractious flavor

One thing is certain – the worst the mind control gets, the more attention the media companies get, which means they keep making money.

ASK CATHERINE

Hi Catherine, I tried to send this to Joseph Farrell, but couldn't . . . but does anyone but me think this is highly suspicious. G.W. Bush, Bill Clinton, and Tony Blair attended an Arkansas High School

graduation. I repeat, *High School* graduation. Probably would never have heard about it except for them having to be evacuated due to weather.

Given BREXIT and IRAQ Report – most interesting!

Dear Catherine:

I enjoyed seeing the written transcription of last week's Solari Report interview being made available to subscribers almost immediately, and I also enjoyed having a written summary of the Money and Markets section being made available to us, too. Is this something that you now plan on doing on a regular basis?

Now post notes

Would like to get the transcripts done quickly – not yet able to promise. That is our goal.

Dear Catherine:

Here in the United States Vladimir Putin is oftentimes made out to be the villain by our media, but what is your opinion of the man?

Nationalist – Smart – Intelligence officer – trying to rebuild Russian sovereignty and economy – prevent what happened in the 1990s from happening again. For many in the G-7 is the spoiler – Use transparency well – GMOS' etc.

Greetings Catherine

Don't have a question, just sharing my thoughts with you. Eight

days after Francis 1 was made pope he made this announcement. Okay, how in the world would all religions fall under one big umbrella? Is it the plan of the Roman Church to put Jesus back into the tomb, roll back the stone in place and place a roman seal across it

<http://tvnz.co.nz/world-news/pope-calls-all-religions-unite-5374919>

Pope calls for all religions to unite

Published: 9:21AM Thursday March 21, 2013

Source: Reuters

Pope Francis urged members of all religions and those belonging to no church to unite to defend justice, peace and the environment and not allow the value of a person to be reduced to "what he produces and what he consumes". Francis, elected a week ago as the first non-European pope in 1,300 years, met leaders of non-Catholic Christian religions such as Orthodox, Anglicans, Lutherans and Methodists, and others including Jews, Muslims, Buddhists and Hindus.

GOAL – Multiplanetary society – push for one world culture, currency, etc.

Hi Catherine:

Like many subscribers , I am awaiting the upcoming RAMBUS Report at the end of this week.

I confess that RAMBUS's reports are an important part of our investment decision-making process.

However, while I do agree with you that RAMBUS's reports are the best things going in the way of technical analysis, sometimes I do find myself sometimes having trouble working through the data and the narrative RAMBUS supplies, and getting to an actionable "bottom-line."

Therefore, particularly given the recent action in the Precious Metals markets, and like another subscriber whose inquiry you responded to on the most recent Solari Report, I wish to echo that subscriber's request that you consider perhaps walking us through the significant findings that RAMBUS reports, almost as a

"summary of the summary," or a "Cliff Notes" (? "RAMBUS for Dummies"?) version of the material the Rambus has reported upon, and for which Rambus has actually furnished a narrative, but somehow, is not as clear as I might otherwise desire.

Hi Catherine,

It's a good thing I know about the evils of Chase Bank; their latest entrainment ad on TV that they keep recycling must be very effective at getting new depositors.

The music they use: Mr. Boombastic, which is a catchy, reggae dance tune

The couple: Artistic, smart looking, in their early 60's, with expensive casual clothes

The star of the ad: An adorable white pet pig on a leash

The setting: an idealized, walkable neighborhood with a resort feel

And Chase Bank: An incredibly clean, shiny, modern up-scale feel, as though they treat you like a private banking customer

(People who don't watch TV can go to youtube and put in the search *Chase Bank walking baby pig.*)

It just goes to show that commercials are really adult fairy tales in disguise.

Thanks for all your information that gives us a reality check!!!!!!

Let's Go to the Movies

INTERVIEW

Rambus focuses on the equity markets in his next quarterly *Blockbuster Chartology* for the *Solari Report* – click over to the interview and I will review the **Financial Round up for the 2nd Quarter and Rabus' Blockbuster Chartology.**

“If you are shopping for common stocks, choose them the way you would buy groceries, not the way you would buy perfume.” ~Benjamin Graham

By Catherine Austin Fitts

This coming week we will publish the quarterly written *Blockbuster Chartology* from Rambus, including a powerful in-depth review across precious metals and equity markets.

For our audio interview, I will solo to review insights from Rambus as well as our *2nd Quarter Wrap Up Financial Roundup*. You can link to the *Financial Roundup* now in the web presentation for the *2nd Quarter Wrap Up* linked from your Subscriber Resource Page or the last two *Solari Report* commentaries where we covered the *News Trends & Stories, Part I and Part II* with Dr. Farrell. A link to the *Blockbuster Chartology* will be posted on Thursday in your subscriber links.

Gold, silver, and mining stocks have had a gangbuster rise in the first two quarters of 2016. Now the US equity markets are hitting record highs. Is the long-term bull market in precious metals finally reasserting itself? Does the US equity bull market have more room to rise? Will government and central bank interventions assure that prices continue to rise, or will slowing productivity growth, lower corporate earnings, and a slowing global economy ultimately ground prices down below current levels? The possible scenarios underscore that investors should be prepared for “volatility in possibilities.” This includes risks to the outlook and stability of the Euro and the US Dollar.

Posting from Lake Constance in southern Germany, I will address current events in *Money & Markets*. Please make sure to e-mail or post your questions for Ask Catherine. And thanks again for the great recommendations and links!

CLOSING

July 28 – 2nd Quarter Wrap Up Productivity, Prosperity & the Popsicle Index

August 04 – Solari Food Series – Vital Soils – The Foundation of Life, Part I

August 11 - The Bechtel Corporation with Sally Denton

Until July 28/August 04

Please remember, don't worry about whether or not there is a conspiracy. If you are not in a conspiracy, then you need to start one.

Good night and good luck.
