“The populist wave now cresting across much of the world is sometimes described as a revolt against globalization: immigrants failing to assimilate the values of their hosts, poorer countries drawing jobs from richer ones, and so on.

But the root complaint is not about economics. It's about justice. Why does the banker get the bailout while the merchant goes bankrupt? Why does the illegal immigrant get to jump the citizenship queue? What right does a foreign judge have to tell us what punishments our criminals deserve? Why do our soldiers risk their lives for the defense of wealthy allies?"

HERO

John Glen

Dead At 95: He Served His Country In War And In Space

In 1962, Glenn earned hero status as the first American to orbit the Earth.

John Glenn, an astronaut, senator and old-fashioned American hero, [died Thursday](#) at the age of 95.

Glenn was the last survivor of the [Mercury 7](#), selected in 1959 as NASA's first group of astronauts. He became the first American to orbit the Earth on Feb. 20, 1962. It was a solo flight, not everything went as planned in space, and Glenn personified cool under pressure.

Those nerves had earlier served him well as a much-decorated veteran of two wars and a military test pilot — and perhaps they came in handy later in his 24 years in the U.S. Senate representing his native state of Ohio.

He was born July 18, 1921, in Cambridge, Ohio, to Clara and John Herschel Glenn Sr. The [family moved to nearby New Concord](#) when he was two, where his father opened a plumbing business. Glenn [later wrote](#), "A boy could not have had a more [idyllic early childhood](#) than I did."

He attended Muskingum College to [study engineering](#), but dropped out to [enlist in the Navy's aviation program](#) after the Japanese bombed Pearl Harbor in 1941. "I knew my responsibility," [he later said](#), "and I thought it was important to get going."

In World War II, Glenn flew 59 combat missions in the South Pacific as a Marine aviator. He flew a further 90 combat missions during the Korean War. For his valor, he earned numerous awards and decorations, including the Distinguished Flying Cross [six times](#).

His aircraft was hit by enemy fire on five different occasions, yet he escaped serious injury. A 1962 [Life magazine spread](#) noted that Glenn once returned from a mission in Korea with 375 holes in his plane. Crew members nicknamed the aircraft "the flying doily."

INTERVIEW

"If you don't know where you are going, you'll end up someplace else." ~ Yogi Berra

By Catherine Austin Fitts

This week on The Solari Report, I will speak with [Patty Kemmerer](#) of Kemmerer Schooley, CPAs, about US yearend tax and financial planning. Our goal is to inspire you to **take action now** while there is still time, before the end of the tax year.

Patty and I will be review the full gamut of tax issues, big and small, including 401ks and IRA investments, Affordable Care Act penalties. **Patty will also review current GOP Congressional and Trump tax proposals in detail.** Look for lots of practical ideas to address your tax bite and help compliance to go smoothly.

In *Money & Markets*, I will discuss the latest in geopolitical news and financial markets development.

Patty, her partner and her firm are excellent.

IT IS ALL IN THE DETAILS –great discussion of details

Dear Catherine,

I am a new subscriber to the *Solari Report*.

I work for a small Family Office based in Asia.

I am looking for resources in respect of assisting the Family Office in anticipation of Trump's plans to increase US infrastructure spending and to implement policies to facilitate the repatriation of money overseas back to the US. I suspect that this will boost US property prices.

Any direction that you can provide in this regard would be greatly appreciated.

SENT RESPONSE PRIVATELY – I agree it will boost US property prices – so subscribers take note

Sent from my iPhone

Dear Catherine,

I refer to the discussion re: Rudolf Steiner.

Have you read Yuval Noah Harari's book "Homo Deus"?

At the end of the book, Harari (an Israeli) discusses new, disturbing religions now emanating from Silicon Valley, such as "Dataism".

Harari says that the original Temple in Jerusalem was basically a "barbeque pit" for making "burnt offerings" to God. Apparently, Western religion believes that it is ok to kill life forms (such as animals) that do not have a Soul. Harari suggests that this may be problem because science cannot prove the existence of a Soul, and with AI we may soon no longer be the dominant intelligent life form on the planet.

What was the name of the last Steiner work that he

suggested? I couldn't hear the name. "Algoscience"? It is the last work that he mentions after "Philosophy of Freedom".

HE IS REWORKING THE TRANSCRIPT WILL
POST NEXT WEEK

Hi Catherine

My early adulthood was influenced by Mises.org in the early nineties...rothbard, hoppe etc...I am older and only a little wiser now.... but I appreciate ppl who know what they are talking about. You are inspiring... I subscribed to your solari rpt... I have a new daughter born this year and want her to be smart and beautiful just like you.

☺ You made my day! Lot to live up to....

A friend sent this to me and it seems to make sense but you know the players see what you think

beforeitsnews.com/alternative/2016/12/rothschilds-caught-orchestrating-us-election-outcome-3448753.html

Way to simplistic – you need to read my commentary the Productivity Backlash.

You have drained places to build out globalization – what is happening you need to rebuild bottom up, decentralize,

reengineer the kind of leader.

<http://beforeitsnews.com/new-world-order/2016/12/preparing-for-pole-shift-2017-retired-military-man-john-moore-6810.html>

Catherine,

After listening to this man perhaps this is where all the money is going and why? See what you think.

Video proposes– pole shift - Wipe out the Coasts

WHERE IS ALL \$ GOING AND WHY? – be careful, we don't know. Would make the infrastructure opportunity even better.

ONE OF BIGGEST UNANSWERED QUESTION is WHAT IS HAPPENING IN ANTARTICA

Dear Catherine,

Thank you for providing the link to Nick Bryant's interview a few years ago. Have been very disturbed ever since stumbling upon that on YouTube recently. The sinister (it goes beyond scandalous) pekrverse sexual goings-on also described by the high-ranking military man's wife on YT also rankled when I viewed that set of interviews several months ago.

And then there's

this: <https://voat.co/v/pizzagate/1457282>

I know the credibility of those so-called "pizzagate" stories remains in great doubt, but if the postings on the voat page are real, there seems to be an epidemic infecting significant swathes of males (especially) in government institutions (Congress, military, etc).

Has this been operating without public knowledge for so long? Or is the widespread infection/affliction more recent? Could these be all part of manipulative entrainment (mind control) of these people in government for blackmail and total control? I cannot believe such evil exists in such great proportional numbers anywhere (although I can believe such in Hollywood). It is all too horrid to just think about. I also wonder if the Weiner investigation will really push through.

Pedophilia – serious problem for a very long time
Porn and child porn – I am told growing into an epidemic – why we did a Book Review last week

Complex topic – Rappoport has agreed to do a *Solari Report* on pedophilia so you have the background on all of this in case the whole pedophilia issue blows up in 2017 which is possible.

Thank you once more for the breadth and depth of the topics and interviews you provide for us all! May God keep you safe always!

Most welcome!

Catherine -

I am sure that by now that you have had cause to review Greg Hunter's interview with Jim Sinclair.

In what Mr. Hunter calls his "most important interview of the year" I feel that it needs a critique on your part for some needed balance.

"Big Jim" sees the death of capitalism - in his "sound bite" quality rant I am not sure if he is Schumpeter or Nietzsche as far as any death is concerned.

While Big Jim sees the "heart of capitalism is markets" - it is not the only system to utilize "the Market" concept. He does not mention perhaps capitalisms key element - uninfluenced "price discover" as always eluded to by David Stockman.

What has died here is the "Specialist" exchange floor entity, being replaced by algorithmic jousting computers. Hell, Marty even figured that one out with Socrates interpreting the moves. Price discovery is now "virtual" at best and the bigger issue to me is that capitalism has produced great abundance and that abundance is being eaten alive by corruption.

I love "Big Jim" - I have learned much from his observations. The "sharks feeding" and the topper - "you can't put a carry trade on a spent cruise missile" are tops.

So please Catherine, comment on "Big Jim's" rant & the relivence of his observation on capitalism. I need to hear your take on this one.

Hope all is well - j.s.

I don't agree with Jim. However, I think he is a smart guy, and I agree that massive government money buy stocks globally is messing badly with honest prices. I put it up because I think he makes the most intelligent case for real trouble. I think Trump will be good for keeping the economy going although 2017 will be a transtion year, but I expect equities to perform best over the next 3 years IF he gets the return on investment to taxpayers turned.

Be prepared to manage allocations so you can live with the volatility.

Long Question about Vatican and relationship to exopolitics - Don't know – I would be careful with conjecture.

Just watched very interesting DVD made by Steve Quale that is very well done that one subscriber sent me on Vatican sites around the world being built on top of sites that involve ET evidence.

Luckily, there were never able to control or wipe out the Australian Outback

Dear Friends:

If you have been following the work of Dr. Michael Sala

of Exopolitics, you are aware of the probability of an "Angelic Cosmic Savior" type event being planned using advanced holographic technology.

Also, the Vatican has been putting forth announcements that promote the idea that more advanced ETS may very well be closer to Christ and that a cosmic new religion is coming, led of course, by the Church with missionaries going out into the cosmos.

The warming up of relations between the Orthodox Russian Church and the Vatican and the recent visit of the head of the Russian Orthodox Church to Antarctica where Sec. Kerry and Buzz Aldrin have recently visited, may be preparing the public for an announcement that advanced ETs are here to help and that they approve or will lead the new cosmic religion.

This speculation in my mind is a reasonable direction the Vatican must take because they are well aware of the ET presence and the disclosures that are happening for a public that is overdue for some truth. In other words, they know their only chance for continuing their position of power is to get in front of this parade.

The era of the white man's dominance is ending. It has been built upon the Church and the Babylonian money magic system based on debt.

And that is the other power group who want to be in position to continue their dominance.

If it is true that the military/industrial/intelligence complex has been spreading throughout the solar system and beyond for decades, using slave labor and merciless methods to continue their pattern of colonizing and increasing their wealth and power by taking resources wherever they find them, we can see how the two power

centers, the Vatican and the Interstellar Corporate Conglomerate, will gladly work together to create a scenario that seduces humanity into continuing to surrender personal autonomy to some newly revealed cosmic religion and a massive "protection" organization that is merely an adopted cover for the tyranny imposed by the ICC. Their story will be that they have been protecting us all this time, so we should appreciate them. When you think about it, these two structures of elitist power, the Western religions and the parasitic debt system, will do anything to sustain their hold over humanity and its wealth.

This points to a collaboration that was established long ago and is now going into a new cosmic phase of oligarchical and religious mind control.

Dear Catherine:

You've mentioned that Hollywood is an industry that has been subsidized by our government. Are you talking about the subsidizing of military movies and war movies? Or are there other subsidies that you're referring to also, and if so what are they?

Furthermore, John Rizzo, the ex-general counsel of the CIA, [affirmed](#) that America's main intelligence-gathering agency has a very "special relationship" with the entertainment industry. "There are officers assigned to this account full-time," Rizzo claims. "Movie industry vets are receptive to helping the CIA in any way they can, probably in equal parts because they are sincerely patriotic and because it gives them a taste of real-life intrigue and excitement." (Rizzo claims to have recruited a movie star who was filming in a foreign country which was hostile to the US government, and to gain intelligence about it, in return, the actor demanded Rizzo and his partner score "the best \$50,000 worth of cocaine you can find.")
