

THE SOLARI REPORT

INTRODUCTION

Welcome to The Solari Report.

Today is January 19, 2017.

I am Catherine Austin Fitts and I am delighted that you could join me this evening.

EVENTS –

Dr. Joseph Farrell Crowdfund – more good news – two of our original donors have given us a \$4,000 match for January. With your generous help, we have raised over \$18,000. If we raise an additional \$213.95 this month with their match we will have enough to fund Phase I – really excited because January is Joseph’s birthday.

\$214 to get full match and complete Phase I.

Prayer Book - Christmas Card for 2017 – prayers for 2017 – email, call or send Self addressed stamped envelope to our PO Box and we will send you one back. They are free.

After we publish Annual Wrap Up come back on Australia trip in 2018.

Working on a lunch in Louisville in March and a trip to Palm Springs in April. Will keep you posted.

THEME TONIGHT: Here it Comes (Inauguration) – Tomorrow noon ET.

Forgive me for being DC centric. Because US central bank policy, budget and media is driving so much of the global financial markets and this is a very big change of course, anticipate being DC centric for the first 100 days of the new Administration.

Washington is engaged in a circus, that is a symptom of the struggle behind the scenes, all that relate to the economics of re-shoring a great deal of money and operations and rebalancing our relationship with Russia.

Midianite thing – full blossom, over the top

Going at each other with razor blades on a rubber

Graham, McCain, Mario Rubio, John Lewis, Maxine Water Reading a script/from teleprompters – it does not work. All coming from same source – does not work. Clintons using their control files. Parts of Clinton support in CIA? Suspect that was behind death threats to Bocelli, etc.

Soros at Davos, following Biden

Biden: Destroying world order – from the guy who helped

Clintons engineer US slave labor camps and assisted with the financial coup.

Soros: Trump will fail – Bloomberg TV. You had the feeling that the interviewed was struggling not to laugh at him.

Organized crime is confused with high performance

Bigger money behind it.

Facebook is censoring RT from Facebook during the Inauguration.

Hollywood, Silicon Valley, DC Bureaucracy, corporate media – superiority complex, don't understand the debt growth model is over – don't understand how the money works. Ungrounded. Too much mind control throughout our society.

Problem is not so much Trump as people realize – problem is end debt growth model

Price people vs. Process people.
 Real Estate vs lawyer

Noonans comment on Obama's style.

Financial Coup – gave away multiples of our retirement savings

Obama = 75,000 increase in debt for every full time worker as of 12/16 = feudalism

How is this gracious?

Do we want style or performance – have lost the ability to tell the difference.

Real estate developer vs. Lawyer
Price vs. profit

Establishment about to get reengineered doesn't understand many of their economic benefits come from not pushing the red button – held up by secrecy, nontransparency around government investment, covert operations, including from The CIA. No one wants to look at that facts. Serious believe in their personal superiority not grounded in the economic reality.

George H W and Barbara Bushe in the hospital – for their protection? – Bush is out of shadow government operations but he may still have his name on a lot of accounts in the hidden system of finance. If the hidden system of finance is in play, I think it is, this will get quite interesting.

Extent of the lies are 100mph. Example: Fake News NY Times – short video – Starts with Trump statement at debates and meeting with Dr. Andrew Wakefield -then runs a hit on Wakefield- blatant fake news – was goal to suck him into a lawsuit or refute what Vaxxed is communicating and accomplishing.

Create shadow work for Wakefield – trick people, keep mind control going.

Means when I pick up the NYTimes, I have to ask myself is this fiction or fact? Could be either. ZERO integrity.

Will Obama issue pardons to Bill and Hillary, Chelsea and the Clinton Foundation? Clinton issued [140 pardons](#) as well as several commutations on his last day of office, January 20, 2001 Best reason for not giving a pardon is simple: Obama doesn't really know what kind of trouble Hillary might be in. And she would have to admit to things she might not be ready to reveal to get completely out of trouble.

One Option for Trump administration after innaguration if it does not settle down– clear the field by having a scandal - purge. Pedophilia, money laundering,

Ben SWAN – 6 minute spot on Pizzagate – Warning to Clinton's and supporting teams to behave

Field – spiritual battle and shift – metabolism in the system going up. Whatever happens, we are better off than with the Clintons

Favorite cartoon – six bullets vs three bullets. So now we have to see if we can make the three bullets turn out ok.

Posted this week: Special Solari Report Goldman Sachs, CIA, Russia and the Privityzation of Covert Finance with Dr. Joseph Farrell

Financial Coup D'etat team is back

Plan to get to a unipolar model didn't work. It is stalled. They need to do a pivot. Now the same team is bringing money and operations back.

Among other things they need the waste to be cut in Washington. Need the money to truly rebuild?

\$ = Bake pies or steal pies?

I am guardedly optimistic.

One of the biggest problems of rebuilding the economy bottom up is covert operations. You have been dependent on the CIA, but they are vested in the old model, don't want to flip the model. How do you deal with them, how do you provide for a new form of covert operations?

Watching the Dump and Pump of an entire continent. Good news is the dump is over and we are starting into the pump. Let's hope that is a lot less waste in this cycle.

CONTROL FILE GRIDLOCK - Looks to me like a lot of billionaires are sick of the NSA and CIA invading their privacy and building control files on them.

Transition team - talk of deep cuts. Long overdue. Question is will they be done well?

Fun in the Phillipines - Duterte – blocking large child porn sites -

New Report on Student Loans – very serious comment on the real economy

Many more students have defaulted on or failed to pay back their college loans than the U.S. government previously believed.

Last Friday, the Education Department released a memo saying that it had overstated student loan repayment rates at most colleges and trade schools and provided updated numbers.

When The Wall Street Journal analyzed the new numbers, the data revealed that the Department previously had inflated the repayment rates for 99.8% of all colleges and trade schools in the country.

The new analysis shows that at more than 1,000 colleges and trade schools, or about a quarter of the total, at least half the students had defaulted or failed to pay down at least \$1 on their debt within seven years.

The changes could have implications for federal policy. Some lawmakers have endorsed the idea of punishing colleges if enough students aren't paying back the loans.

A spokeswoman for the Education Department said that the problem resulted from a technical programming error.

HERO

Frank Kovak, Kovak Planetarium, built in his backyard.

<http://www.zerohedge.com/news/2017-01-18/alibabaa-jack-ma-drops-redpill-us-wasted-14-trillion-wars-over-past-30-years>

Jack Ma (richest man in China) says the US wasted 14 Trillion dollars on war in the past 30 years.

Now that is the kind of honesty we need

Let's Go to the Movies

For *Let's Go to the Movies*, I will comment on the TV series *Designated Survivor* and what it says about the governance tensions in Washington, DC between the President-elect and differing factions in his intelligence agencies.

INTERVIEW

1. 2016 Charts
2. Jan 2017 Blockbuster Chartology – where we are
now
3. Scenarios – 2017 Implications

**Scenarios represent a major change from prior years.
Not just more slow burn.**

“Don’t let the same dog bite you twice” ~Chuck Berry

By Catherine Austin Fitts

This Thursday we will continue our rollout of the *2016 Annual Wrap Up* with my overview of financial markets over the last year combined with the first 2017 Blockbuster Chartology from Rambus. We will discuss what happened in 2016 and what current charts and outstanding technical analysis from Rambus indicate about current markets for the US dollar, the euro, and global fixed income and equity, as well as for precious metals.

You can follow along with the 2016 charts in the “Financial Market Round Up” section linked on the *2016 Annual Wrap Up* web presentation and the latest Blockbuster Chartology

on its linked web presentation. You can link back to all of the Rambus quarterly reports over the last year.

In all of our *Annual Wrap Ups* to date, I have told you there is a good chance that the “slow burn” will continue through the next year – but not so for 2017. We are entering the “pressure cooker.” So in combination with financial charts, I am also going to introduce our scenario thinking and four scenarios for 2017 published in the *Annual Wrap Up* web presentation in “Get Ready, Get Ready, Get Ready.” I will use these scenarios for business strategy as well as determining investment allocations.

In *Money & Markets* this week I will answer your questions in *Ask Catherine*. Make sure you e-mail or post your questions.

ASK CATHERINE

<https://www.theguardian.com/technology/2017/jan/11/microsoft-employees-child-abuse-lawsuit-ptsd>

<https://www.theguardian.com/us-news/2017/jan/11/chelsea-manning-obama-commute-prison-sentence>

some one spent 13 million for the pent house, ouch!

<https://www.theguardian.com/us-news/2016/oct/06/san-francisco-leaning-millennium-tower-investigation>

Dear Catherine,

I would like to comment on this number. My understanding is this number is a cumulative total, not for the year 2016. Given that the annual defense budget is .7 trillion +/-, this total has occurred over many years and has grown since Rumsfeld first announced 2 trillion missing in 2001. If that is true, then 6.6 Trillion-2Trillion/15 years, equals an average 0.3 trillion unaccounted for per year since 2001. That would mean about 40% of the defense budget is accounted for over the past 15 years.

Now if Goldman Sachs knows all the money flows, don't you think they also know where the 6.5 trillion has gone?
I hope that this new administration will demand accountability for these moneys.

Best wishes,

LOOKS LIKE ANNUAL NOT CUMULATIVE TO ME

POSTED LINKS TO MISSING MONEY – offered to go through.

Hello!

I thought I'd send in some happy news about my experience with the Blushield product that you and Jason Bawden-Smith talked about in your Solari Report a couple of months back.

I am very sensitive to electromagnetic energy so when I heard about this product and how your orchids went wild I thought wow, there sure isn't a placebo effect with orchids! This thing really works. I got the one that you plug into an outlet and

just went about my usual quiet life and observed.

I have two cats, one of whom, Lily, is about 10 years old with pretty severe arthritis and a genetic bone problem due to her breed (she's a Scottish Fold). She has been in increasing pain over the last several years and is on a strong anti-inflammatory drug and some supplements. In the last year or so she's required narcotic pain medication once a week or so to give her a break from the unremitting pain.

About a week after I plugged the Blushield in she was a different cat! She started leaving her bed with the heating pad and being with us - allowing more touch and actually walking much better with much less pain. She now sleeps in a happy sprawl instead of rolled in a stiff ball of pain. It's only gotten better since then. She interacts and talks more, plays with her friend Minnie, our other cat and even spontaneously plays with toys on her own. I have not seen this kind of behavior in literally years. She has not needed pain medication since I plugged it in. To know that she is in so much less pain and enjoys life more can literally bring tears to my eyes.

Minnie, incidentally, has had a great improvement in her chronic ear infections, too, as well as just having better energy all around.

As for me, I think it was of great assistance in coping with the horrible bombardment of electromagnetic mind control and entrainment that was just relentless in the run-up to the election and now as we are almost at the inauguration. The mind control that is broadcast through the cell network, etc. was certainly used a lot post election to assist in the civil

insanity that was rolled out in my area, the Pacific Northwest.

With all the effect on humans of all of the crud raining from the sky, electromagnetic pollution, etc. I think our furry friends get it even worse due to their smaller size and being close to the ground. Needless to say I am thrilled with my decision to invest in a Blushield.

So, a tip of my hat to you and Jason Bawden-Smith and really big purrs from Lily and Minnie.

All the best,

WHAT GREAT NEWS! Delighted to hear of this.

Dear Catherine:

Two terms that have been utilized for years now are neocon and neoliberal. Can you give us your own definition of what these two terms mean?

My experience was no connection to conservative or liberal, rather Neo- organized crime. And the conservative or liberal meant a philosophy masking for self interest.

Has Catherine seen this link? This is a crowd sourcing investigation on the corruption is the US deep state that has been going on for 82 days now.

<https://www.youtube.com/watch?v=Q0tAhMIBCEc&index=67&list=PLcgk8FfGnzkxDSYW-3gqzNBVxJVE2a9Hh>

Yes, have been watching – George Webb looking to explain how people made money on Libya – money laundering through Clinton Foundation, Dyncorp, etc. Interesting presentation – have posted several.

Greetings Catherine,

I'm a fairly new subscriber to Solari(I was enticed by your conversations with Joseph)...so I'm just learning the ins and outs of finance, and a friend of mine shared this article with me. I already feel like there are some red flags here, and that she doesn't really understand how the the big picture economy works. I was wondering what your take is.

<https://medium.com/@girlziplocked/why-amazon-isn-t-a-fucking-idiot-and-runs-a-deficit-f9d5734b68ec#.uou5jse8x>

GROSSLY OVERSIMPLIFYING

Amazon is building and using pre-tax dollars to build –so no profit for now – is it smart yet. If that lasts forever Is it smart, now. Profit is important.

What is important is RETURN ON INVESTMENT. Is the game that it is playing producing a high return? Yes, than it is smart.

CIA contract – designed to keep them afloat, so control?

Same issue with US Government. Deficit is not important if it is running a positive return on investment to taxpayers. Big problem if it is negative.

Listen to Can American be great again with Rappoport.

Works as long as the capital flows – which is why using regulation and dirty tricks to stop capital from flowing into small farms and business is so ugly.

Everyone should have equal access to play this game. Let the least competent get squeezed out.

Hello

For a YouTube video on mysterious events that looks to be made by a guy living in his mother's basement, this one actually had a few things that were worthwhile. Spherical clouds? Whatever it was that was making the chemtrail? Take a look.

<https://youtu.be/XZsl9oa6G7U>

Don't bother watching the number one video

Interesting – posted.

Catherine

My brother, Robert Adams, invented the Zeriscope for improving telemedicine in South Carolina with his latest thrust to provide nursing homes with experts to determine if a patient needs to be taken to the emergency room and back to a hospital. There is now such a large fee charged for returning patients unnecessarily.

He hired an ex Navy Seal, to work with the company and Sam saw a market for this as a replacement for the Police Body Cams.

My question: Even though the Zeriscope would provide more resources for the police in the field, DOES THIS OUTWEIGH the intrusiveness of this platform into our communities and individual's privacy. I am thinking of investing time and money in this company to promote the Zeriscope but am worried that it may just be giving Mr. Big an other eye into our privacy. Your opinion would be very valuable to me in making that decision.

Thank you for all you do and have a blessed day,

Not uncomfortable so long as it helps protect the police and population – which transparency should do in most cases.

Hello Catherine,

I am curious if you have heard of George Webb and his work regarding

the Clinton Foundation. His work is very thorough, as he uncovers approx. 33 years of history and how it relates to the Clintons. He reveals the players and provides evidence. A number of his videos have been deleted, so he must be spot on in his analysis. I am sending the link for Day 53

<https://www.youtube.com/watch?v=rCTzFNrsKns&list=PLcgk8FfGnzxDSYW-3gqzNBVxJVE2a9Hh>

I expect you will find Day 60 extremely interesting in that discusses the Clintons and their corruption in Haiti .

https://www.youtube.com/watch?v=BO4zw_dJScM&index=10&list=PLcgk8FfGnzxDSYW-3gqzNBVxJVE2a9Hh

As a family we are praying for the protection of Mr. Trump and Mr. Pence their families and the entire team. We also pray that swift justice be given to all those who perpetrate this evil, especially as it relates to children and the innocent victims of their bloody wars. I don't know how they can sleep at night, especially as they look at their own children and grandchild.

Thanks for your amazing work.

Reshoring instead of war works – question is once we rebuild the military what will happen.

Do you have any comment or insight about Betsy DeVos, Trumps' choice for Education Secretary, being the sister of Erik Prince of Blackwater?

Not yet – have it on my list to watch her confirmation hearing.

Trump team has lots from the covert side, some from Koch – he is trying to weave a tapestry of all the Republican players he needs to pivot.

If they are going to reshore they are going to be obligated to make things work instead of stripping them.

Problem – arrogance.

Hi Catherine!

Hope you are well.

Amongst numerous current world change subjects, I have a deep interest in physics. I have been keenly aware of the buried technologies for some time. If “they” can’t control the distribution “ they” kill them. (I encourage you to also interview Dr. Greer if you haven’t already)

However, these new (actually long held) technologies are leaking out everywhere.

One such simple invention was the **Nickel Iron Battery**... a loooong ago invention. The original problems have now been solved, resulting in a LOOOOONG lived HIGH quality battery. (30 years or more)

I have come across several “secret” entities building it, one in particular has bravely ventured out into the US market from here in Colorado. (A last purchase for off grid solar systems)

Might I entice you to contact, interview and help expose them to the public before they get attacked and killed off? (Once again, they would bypass the precious distribution controls and thus pose a threat.)

If so, I will send contact info.

Thanks as always.

HAPPY TO LEARN MORE BUT I DON'T HAVE CAPACITY TO DO DUE DILIGENCE SO I CAN NOT HAVE THEM ON, may know others who do, if that is ok send on

Dear Catherine

Thank you for the special show on Goldman Sachs and President-elect Trump's team. It was most informative. Please consider doing the same program with Dr. Farrell after Trump's State of the Union Address.

One thing I am sure Trump's Goldman Sachs team will not repeat is Obama's fiasco of rolling out an unfinished, failed ACA's website to initial any new programs they have planned. When Bush appointed Goldman Sachs' Hank Paulson Treasury Secretary in 2006, his first budget in 2006 included millions of dollars to write and test software that would eventually be used in 2009 to execute TARP. I know because two friends of mine were working for Feds and were on the team that built the software. In fact, the execution of TARP was delayed several times that Spring because they were still working to make it fool proof. This confirms your assertion that the Bush-Obama team were working together to steal the \$700 billion of taxpayer money allowing only 1% to help the homeowners.

We might learn something of Steven Mnuchin's plans as Secretary of Treasury by looking closely at his 2017 budget to see what money has been included in his budget for new software.

YES INDEED. Looks to me like plans have been going on for a while to reshore.

Dear Catherine and Joseph,

I noticed this news, also after listening to one of the news and views from Joseph about Hungary banning Soros – funded NGO's, so I guess that among the countries that are doing the same is also Macedonia now. I did not hear about similar trend here in Croatia or other

countries in the region, but it is very possible too.

You should keep in mind that US has huge influence in this region and in Macedonia they have built in recent years one of the biggest CIA centers in this part of the world, together with huge US Embassy building. Kosovo is not far away either so...

Here is an article:

<http://www.mia.mk/en/Inside/RenderSingleNews/323/133526729>

SOROS mess is reverbarating

CLOSING

Again – please make sure to go through SCENARIOS FOR 2017

January 26 – Annual Wrap Up: The Global Harvest and What it Means to Investors

February 2 –The Emerging Multipolar World with The Saker

February 9 – A Solari Report on Pedophilia with Jon Rappoport

Until January 26

Please remember, don't worry about whether or not there is a conspiracy. If you are not in a conspiracy, then you need to start one.

Good night and good luck.

+++++
