**THEME TONIGHT:** The Shreik-o-Meter is running at max

Find people completely lost in the noise. – One of the reasons did the 1<sup>st</sup> Quarter Wrap up

Turn it off – if you need mainstream news – Financial Times, WSJ, Reuters, the Economist, selection of leading Asian English papers – can be wildly wrong and the material omissions can be profound – but they tend not to shriek. Shrieking is still disdained in the financial press.

Tillerson – week ago – Assad Stays

Assad approves Syrian forces to attack rebel village

Sarin Gas – Assad says not delivered by Syrians – claims in local warehouse

Russians defend Assad

Tillerson in Palm Beach for meeting with XI and Trump says international coalition must insist that Assad will go.

To convenient for words – don't but it. Likely someone set up Assad – question is who --appreciate that Tillerson and Trump do.

Ron Paul – Zero chance it was Assad

Switch hit of Bannon off NSC and Dina Powell on –

Egyptian background – speaks Arabic – helped engineer the Bush wars in the Middle East.

Very ugly turn of events. Question is who is trying to start a war here.

Trump administration getting pulled into hot spot crisis management – North Korea, Syria

Back to all the countries you need to bust to get the global currency going – so I am suspicious.

Trump and his team need to sit down and watch Sputnik Fever, Shut Up and Sing and 13 Days – and get much slicker about not getting tricked into war

Guestimate \_ US Government spraying, narcotics trafficking and suppression of health care freedom and information poisoned far more US citizens this week than we killed in Syria – how come no one is jump up on down about that?

Lockheed Martins stock keeps rising to the moon

Summit with Chinese President Xi Jinping in Florida

Senate changes rules to confirm Gorush nomination to Supreme Court – Role in Torture not ok – I would vote no – Thank heavens for Mattis

JAMIE DIMON – psychopath of the month – does he think we don't know? Has he been memory wiped?

## **Let's Go to the Movies**

For *Let's Go to the Movies*, I will review *Zero Days*, a documentary about the creation and propagation of the

Stuxnet computer virus. The film addresses the vulnerabilities of energy and industrial systems to cyber attack, the joint US-Israeli effort to target the Iranian nuclear industry and the development of the US Cyber Command – a new military front in the propagation of global digital violence. If you have ever questioned my statement that digital systems have zero integrity, *Zero Days* will help you understand one of the reasons why.

I believe it is one of the many legitimate reasons that the Obama Administration soured on working with the Israelis. – looks like Trump is going to have to learn the lesson the hard way.

## **INTERVIEW**

**The real events**

**The deeper story**

**Walk through the Web Presentation**

By Catherine Austin Fitts

Our theme for the 2017 1st Quarter Wrap Up is “*The Clash of Civilizations – Can a new administration preserve a prosperous economy without more debt, crime & war?*”

Dr. Farrell joins me this week to discuss our theme. We assess the first 70 days of the Trump administration and the contradictions at the heart of the American economy,

Our web presentation comes complete with —

- Overview of the Washington DC financial ecosystem;
- People and profiles of the new administration;
- A presidential report card for the first 70 days;
- Top accomplishments;
- Top material omissions and stumbles;
- Recommendations; and,
- Links for Solari Report coverage of the Trump administration.

We will discuss the clash of civilizations happening in the Western world- and whether we will permit the destruction of the principles, values and laws that created the Western democracies and are the foundation of our prosperity.

Our goal is to help you see past the “shriek-o-meter” that is distracting the public and to provide you with critical insight regarding the real power and money issues driving events behind the scenes.

The following week, Dr. Farrell joins me again for an in-depth review of *News Trends and Stories*. Check out the web presentation for a listing of the top trends and links for the top stories of the first three months of 2017.

In the third week, I will present the *1st Quarter Equity Overview* combined with our quarterly Rambus Chartology. Check out the web presentation for the fixed income, equity and commodities charts as of the end of the 1st Quarter.

Dear Catherine,

In October 2016, my friend gave me a subscription to Solari in order to help me navigate to a worldview that was more consistent with my actual experience. Now, I've started a little group of Solari fans here in NC. We gather from time to time to listen to and process one of your messages. We recently jumped onboard with a local fluoride-free water effort that was stalling and gave it new life. And little by little we are turtling along bringing your words and gems into our daily life and into increasingly more powerful interactions with the local staff. We are a university town complete with a secret society so there are nefarious roadblocks everywhere - as we're discovering.

LOOK FOR OPPORTUNITIES TO ALIGN – THEY ARE THERE

On my recommendation, [Claire Viadro](#) subscribed to a year of Solari. Claire has a Ph.D in public health and is a smart, articulate woman. She is well trained and versed in vaccines, fluoride and many other timely topics and she is taking Sally Fallon's place in running THE WESTON PRICE FOUNDATION. Claire is also schooling her two boys at the local Waldorf school - there are many connections and she may be a good resource for you at some point.

I just wanted you to know that we're here, we're growing, and we're grateful.

Blessings to you, dear Catherine!

SO WONDERFUL – WESTON PRICE GREAT ORGANIZATION WITH WONDERFUL CIRCLES

You talk about the deep state... and I get it... to a degree. I think of the head of the deep state being the banking system. But, just how does this deep state co-ordinate with the left and the right? I presume it basically controls both ends? Just what and who are the enemies?

I think your Trump lollypop interpretation has merit. However, I believe he possesses a very much greater depth of understanding of the world's peril. But he surely is the concrete vs. software side.... that which people not only understand but recognize has being legitimate.... transparent of corrupt.

I think he has an uncanny knack of slicing the defenses with his essential one line twitter tweets. How insightful was it to tweet Obama's has wiretapped me!! That little tweet alone turned defense to offense at a time it was sorely needed.

But that is the big picture view. I want you to focus on the reality of the little picture and see if you can find people with the knowledge of putting the transformation of what is occurring into a perspective that makes it understandable. Someone who can put together a time line of this Russia stole the election scenario... which is bogus. However, it involves a lot of deceit perpetrated by a conspiratorial number of people including the various intelligence communities, the Obama white house as well as the Soros like guys pulling the puppet strings.

I have one more thing that may peek your thought process. Consider Trump a second coming of Christ. As ridiculous as that may sound, there is a movie called Zeitgeist that stated that every 2,000 years there is a new age of religion with a duplication of a Christ figure that is identified by different names but one that has world transformational powers and a similar life's story. This deity touches the lives of the world in a great way, but a good way as opposed to say a Hitler. I have to admit that Trump was not virgin

birth. However, he is on the path of throwing the bankers out of the temple!!

Thank you Catherine Fitts.. I enjoy the perspectives of your show, and catch a great deal even if a bit of it goes over my head.

Hi Catherine. I heard recently from a local source that FANNIE is holding inventory off the market. Previously in our area, units were listed for sale immediately after sheriff's sale. For some reason, FANNIE is now holding units off. Have you heard anything about shifts in inventory management? Thanks. CR

Background.

Our area is notorious for a HIGH level of foreclosures and it's been that way for years. I recently had a conversation with a RE agent who handles FANNIE REO that prompted my question. We've also observed a drop in HUD REO activity.

I do a little writing in my spare time. I've written on the CFPB's TRID rule. And most recently, published a story re: MERS activity in PA (copy attached) involving class actions by county clerks alleging fraud by MERS in foreclosure actions.

VERY INTERESTED IN MERS

ARE THEY STOCK PILING TO DO A JMUMBO FLIP OR PLACE BASED REORGANIZATION? Would stock pile Fannie, Freddie, VA and FHA – maybe Farmers Home  
- defaulted mortgages and REO.

Institutions want critical mass of properties and may want critical mass in one place. May even try privatizing towns.

Hi Catherine

I finally got a subscription to Solari a few days ago after researching the global economy and the ET phenomena for over a year. Holy mackerel! Finally a decent resource that is comprehensive and has enlightened risk assessment!

I'm working with a group called Canadian Bank Reformers. We are lobbying for monetary policy changes in Canada. [www.canadianbankreformers.ca](http://www.canadianbankreformers.ca)

I'm looking to get opinions from mainstream economists and Wall Street analysts to assess our plan to bring back the Government Created Money functions that the Bank of Canada used between 1939 - 1974.

I have a few questions for you:

- 1) Would you be willing to comment on our proposed implementation plan? <http://www.canadianbankreformers.ca/new-social-contract/>
- 2) Can you provide some brief comments on the power of using government created money to separate ourselves from the debt based money creation policy. I talk to politicians and I am finding the need to have more than one source to reference. We need people currently in the thick of things as advocates. Paul's ideas are really good but they are insufficient to convince politicians.
- 3) If we are able to secure capital to do a documentary on the issue would you be willing to appear in it?
- 4) Can you suggest other people that would be good resources to support our initiative?

5) Are there any plans to have Country specific analysis? I'm Canadian and I would LOVE to be involved in such a project. My skills are six sigma process improvement, operations management and project management.

Thank you so much for the human freeing work you are doing.

Hi Catherine,

Ive been listening to you for years and have been a subscriber to Solari Report for about two. I can't thank you enough for the incredible amount of info I've learned from you and your guests and how its refined my world view.

If you don't already, please listen to Geo Engineering Watch by Dane Wigington. He bravely covers chemtrails along with ecological collapse and is one of the only researchers that will look at both issues together. It is critical to our future on planet Earth that his message is heard and I urge you to do so by clicking the link, maybe even consider him as a guest.

Here is the link to a resent show . I promise it will be worth your time.

POST – yes, fan – great testimony at the SHASTA COUNTY MEETING. Have not had because of Carnicom's materials in archives.

Hello Catherine,

I thought you might find this link interesting. I do not know the accuracy of this report, but it appears to tie in with your Solari report on Cardiac Arrest: The Criminalization of America

<http://www.fulcrum7.com/news/2017/3/5/amish-farmer-placed-in-jail-by-fda-for-selling-healing-salve>

This must be extremely difficult for Mr. Sam Girod and his family.

HORRIBLE STORY – have sent donation – encourage others. What happens when you don't play the game right.

Hi Catherine;

I appreciated your interview on Gaia tv. One reply prompts me to write for further clarification.

Regina asked you how a Defense Dept. can lose \$6.5 trillion when its entire budget is less than \$6 billion.

You said something to the effect that this is possible when you are financing with securities fraud. I long to hear more from you on this. What amazes me is that the DOD revelation has not aroused anyone in Washington D.C. to ask the same question. No major news reporter has touched it.

This intentional distancing from what has to be a national security debacle and open theft of the nation's wealth must not go unchallenged.

It reminds me of the same inexplicable silence when bankers "commit suicide" with a body full of nails from a nail gun or the national blindness to the chemtrails overhead that are never explained. Where are the honest public officials? The real journalists?

Right here – I was an honest public official Now I am an honest journalist.

The crimes against the people are so blatant and ignored by our "responsible" law enforcers, press and political leaders,

They think there is nothing they can do – they adapt.

Question why does the market adapt?

we are being trained to live in an alternative reality where no one can allow themselves to deal with what is obvious and poisoning our national life.

Not true. I am not no one. You are not no one. Leave them behind.

Please explain this. Why isn't anyone concerned about the disappearance of trillions where trillions are not even supposed to be?

Someone is concerned. I am concerned you are concerned.

You need to change your language and start nourishing and growing what is working

Thank you so much for continuing to bravely tell it like it is.

Hi Catherine, No question this time...just wanted to let you know that when I hear the opening notes of each weeks Report, I immediately get a feeling of relaxation, and it's so very nice. So thank you for that. It's a lot like the Inner Explorer children's meditation program I support where they always start each days lesson off with a few notes of

Vivaldi...it's a signal to their minds to relax and be prepared to tap into something "outside the matrix". The music preceding each weeks Solari report has the same effect on me after all these years...I'm instantly prepared to always learn something new and interesting that can benefit me and mine, if not all humanity, in one way or another.

Thanks

Catherine,

I just listened to Where Would Jesus Bank recording and went out to find a good local Bank. I found one and placed my a large savings amount into it.

According to both Bill Bonner and Jim Rickards; a credit crunch is coming that will destroy alot of Banks. This new local bank is very secure on paper; but I still fear the other banks might take this down with them.

Is my savings still vulnerable?? I want to protect is (I invest in gold, bitcoin, and goldmoney)

IMO, significantly more secure than Gold Money or Bitcoin but I want access to cash when Farmland opportunities open up.

Is a solid small local bank as solid as I am thinking it is??

Don't know your bank. My bank is. Heavily capitalized, excellently run, FDIC insurance (in your case, credit union) heavily involved in the community.

Most dangerous – listening to fear porn

Thank you for all you are doing

Hi Catherine,

Here is an article that was forwarded to us today, about the Trump administration and Geo-Engineering. We were hoping he would stop it...

Hi Catherine,

Thank you for your wonderful ongoing Solari Reports and work!

We learned about this very scary bill introduced in California which would strip local authority regarding the installation of cell towers, 5G, and antenna installations.

IN WORSE CASE NEED TO LEAVE – IMO exceptionally  
dangerous

TELCOS ARE FAR MORE DANGEROUS THAN

We wonder if this is happening in other states as well?

Thank you again for all you and the Solari team do!

Dear Catherine,

I hope you will do a discussion or analysis of this article or one of M. Hudson's 2 books mentioned in the article. I appreciate the way Hudson lays out the betrayals by Obama and his pals. So many people refuse to look at it. Maybe that is why the focus has been on demonizing Russia.

Thank you so much for bringing this to our attention.  
May we have peace, unity, true connection,

Hi Catherine,

Thanks so much for taking my question during the Solari  
webinar today. I appreciate the information you provided in  
the webinar and I learned a lot.

I am the Solari subscriber that called to say that I live in the  
SF Bay Area, and mentioned how it's hard to know where to  
dig into our large communities to figure out the money  
issues... I really liked your idea of focusing on one positive  
aspect of our local economy and supporting that.

You mentioned I could email you and you would connect me  
with Bay Area friends that are doing just what you were  
talking about and finding success.

Catherine,

Can you recommend gold or silver stocks that are reputable to invest in. Stocks that are not negatively leveraged or that will move with the increase of price of gold or silver? Are there specific gold vs. silver stocks? Are you supportive of precious metal ETF's and if so, which ones?

See article on GLD and SLV – don't recommend securities – regulations at an IA – research advisor on precious metal stock portfolio but that is actively managed
