**THEME TONIGHT:** Connecting the Dots between Charlottesville, the US Constitution and the Missing Money.

THE PROBLEM - Governance System – Operate according to the Constitution, particularly the financial provisions – free to operate the money independent, financial coup d’etat, can finance independent governance system and breakaway civilization.

## **CHARLOTTESVILLE PSY OPS**

Goal of this conversation is to shift your consciousness to a state that can give you insight and from that insight will flow actions that are energizing for you – it will be different for each of you. What I want you to do to shift your consciousness in a way that increases your power. What you do with that power is your choice and I leave that part to you.

OP –

False Flags – Richard Dolan  
GAIA series

Wild guesses how it may have been done

Charlottesville – op on both sides  
PsyOp following- getting more aggressive as time goes by

Paid and orchestrated theatre combined with mind control op  
(driver killing 3) and subsequent entrainment

Helicopter why taken down? to keep there from being eyes in the skies?

CEOS

JP MORGAN, MERK, AETNA

JP Morgan – largest portion of \$15 trillion of illegal transactions, \$24 trillion of bailouts and related mortgage fraud

MERK – IMO creating an epidemic of autism

AETNA – socialized medicine serves industry profits instead of health care

How could it be this big? – Whole model is threatened – Just like Kennedy

Missing Money

Why focus on Missing Money – unifying everyone. Model has to change or we will descent into slavery

## **Goals**

1. Divide and Conquer Distraction – increasing pressure from Americans to focus on real issues – polls and Congressional feedback
2. Destruction of history – statues

TPTB want to institute slavery – digital technology and mind control. Now have the ability to perfect collateral – pays to destroy history of civil war and what really happened.

3. Take out Trump and his base?

Major victory - China enforcing US sanctions against North Korea

Bannon correct – what is happening between China and US is far more important than any of this.

Was I wrong about Bohemian Grove? - CEOS

**4. My Vote:** Take Out Constitution - Target White Men -.

BACKGROUND – serious study of “beat down” and genocide of African American population – understand how to see those tactics being applied to other groups now. Invaluable background – and reason why African American mastery of spiritual warfare is so valuable to all of us.

REAL CHANGE don't need 100% of population- just need 5-10%.

Enforce the Constitution – Get Back the Missing Money

Goal – Need to stop that 5-10% from seeing the game, taking action, finding each other.

80% of the people with knowledge experience and impulse to enforce the Constitution, do something about corruption, missing money

## **Recent History of Carrots and Sticks to control well educated white men**

### **Carrots :**

Hire them

Lots of make work defense contracts

Selected ones – network with various benefits like freemason and sex – special sense of inclusion

Pump and dump of housing market – lots of profitable construction and financing

### **Sticks:**

Women's Lib

Sexual Harassment – astonishing at Hamilton to find out how afraid they were of false allegations

Trump Campaign – Productivity backlash

Tried to define as uneducated and Stupid

After victory – targeted white men in media and think tanks that helped Trump get elected

Now Charlottesville

### **Key Points:**

**1. Who are these white men** – what are they interested in – returning power to small business, community, family .

They are typically patriotic, take responsibility and are lawful

If you are going to protect the Constitution and do something about the missing money, this is a critical core of the people who are going to do it.

They are also protecting Trump – rallies etc. If you are going to take out Trump you need to first take out his more powerful lieutenants and support – Bannon is a target now – probably Hannity too - de-legitimize his base as “white nationalists”

## **2. Make sure they do not understand their power individually and together.**

These folks don't understand that they have been marginalized relative because they are not sufficiently corruptible or psychopathic.

Projective identification – attack them before they can attack you.

## **3. Make sure they are ashamed**

Lone ranger story – hunger for admiration.

Now they are target of derision by women – they are bad white nationalist – goal is to make them feel ashamed. No pathway to be the hero. De-energizes.

If they protect the Constitution and get back the missing money, they will not be a hero just a hated white nationalist.

Example: Germany – Nazi – can't use Swiss system because would produce Hitler – ridiculousness is that this is all done by the bankers who financed Hitler. It was Wall Street and the City of London who created

E-mails from subscribers:

Don't understand why they are being attacked

Don't appreciate their own power

Don't see a pathway to outwit the spin

Some depression, even serious depression

## **WHAT WE NEED TO CHANGE:**

**1. Societies who allow their enemy to define who is and who is not a hero will fail.**

Example: Hickory Valley & Jon Corzine article.

Now let me get this straight – my cousins are evil white pigs because they are trying to protect me from the narcotics trafficking that spread from Mena Arkansas when you and your partners laundered the money for and the Clinton's protected in Arkansas? And the pump and dump of the housing market which your firm engineered? And to protect myself from these evil white pigs, I should vote for you? Hubris is beyond imagination.

Example: Traveling and talking to communities – failure to recognize who is acting in their best interests – admiring people who act against their best interest.

Sebastopol - Shocking

If we want to succeed **MUST FIRST SUCCEED AT MANAGING OUR ATTENTION AND ADMIRATION TO SERVE OUR**

VALUES AND BEST INTERESTS, RATHER THAN SEEKING THE APPROVAL OF THE PEOPLE TRYING TO KILL US AND DENIGRATING THE PEOPLE TRYING TO STOP THEM

## **2. See and Deal with Real Power Lines**

Tearing down confederate statues and changing school names will use up lots of time and money, be very entertaining for some, weaken the local culture and NOT TOUCH THE REAL POWER LINES.

\$15 Trillion Missing from DOD and HUD- \$49,000 per person, \$200,000 for a family of 4 – will pay off mortgage or student loans, or fund pension fund or health care. THAT TOUCHES THE REAL POWER LINES

## **3. Build immunity to divide and conquer distraction – Build up opposite sex; learn your history**

See: Promoting Women Series

Antiquities – cultural power

## **WHY IS IT IMPORTANT FOR YOU TO SEE THE GAME?**

### **1. Harvest immunity:**

If you can see reality you can make conscious choices about how to use your time and energy and not let your enemies harvest it for their benefit.

## **2. You can change things with your consciousness ALONE**

“If we can face it, God can fix it.” Don’t need to do a thing – although prayer would be great. Simply a shift in consciousness would change everything on these games.

Appreciating your power is a source of energy – access it for whatever you want.

## **3. You can change things with actions that are entirely safe.**

See 2<sup>nd</sup> Quarter Wrap Up pdf and flip book – Bank Local, eat more fresh food, back the entrainment and subliminal programming out of your life. Leave your smart phone in your care – ever go back to a flip phone.

## **4. You can change things with actions that take small risk**

Network locally to build local power – see 2<sup>nd</sup> and 3<sup>rd</sup> quarter wrap Up

Offer 2<sup>nd</sup> Quarter Wrap Up at our cost to send your state legislators and Congressman

## **5. You can change things with actions that take larger risk**

Why I do – delete civil war knowledge – delete knowledge of slavery – want to reinstitute it. Whatever I do that involves risk, less risk than what will happen if I do nothing.

## **6> Pray for people who have been mind controlled**

Try to make sure that people in your family and close friends are protected – print out Adam Trombly transcript and circulate – brief your family about how to protect themselves from entrained addictions

- Consumer shopping
- Gambling
- Video game addiction
- Pornography
- Control files
- Divide and Conquer (lose time)

Talk with them about concrete local issues – including supporting the most productive local candidates and officials.

Typically, discussing Charlottesville is a waste of time with anyone who does not have personal experience on the ground. The amount of entrainment and mind control at this point is very high.

## **7. Reject hopelessness**

**TURTLING – YOU NEED TO BE ABLE TO HOLD YOUR FIELD – POSITIVE SIGN**

HOPELESSNESS IS THE OP (Jon Rappoport) ; IF YOU FEEL IT OR ADOPT IT YOU ARE ALLOWING YOUR ENEMY TO DEFINE YOUR REALITY

.  
THE PSY OPS IN CHARLOTTESVILLE is proof positive that we are making progress.

That signal means it is time to double down on progress, not start to feel hopeless and get depressed.

Again - Check out the 2<sup>nd</sup> Quarter Wrap Up and look for actions that are **energizing** for you to do.

The Constitution and the Missing Money – those are the power lines.

## Pastor on 9/16/01 – Rush House Commeth

Kiplinger newsletter – very good intelligence on Congress and Washington calendar – latest write up as a good analysis of the fall crunch – I recommend if you are interested and want to subscribe.

The House has only 12 working days between when it returns from Aug. recess and the end of Sept. The Senate...16 days.

Much Accomplish by Oct 1:

Debt Ceiling – before Treasury runs out of money  
Budget Resolution for 2018  
Appropriations Bills for 2018

GOP Goal: tax reform by year-end  
Health care by year end?

Pig moving through the snake – very difficult to get done given scandals, investigations, Congressman being shot and receiving death threats.

Time on the calendar has been eaten alive by political warfare. It is clear the political establishment has absolutely no interest in MAGA.

### **Hero:**

Dr. Mark Skidmore .. Professor at Michigan State University

### **Let's Go to the Movies**

In *Let's Go to the Movies*, I encourage you to watch Charles Ferguson's "No End in Sight" on America's first two years of occupation in Iraq and the intentional engineering of the country's descent into lawlessness and guerilla warfare. In many conversations in recent months, I find myself recommending this documentary to

Americans who do not yet understand how regime change often brings intentional and systematic destruction of civilization.

Remember – if they can do it there, they can do it here. That is why it is so important to uplift our culture in every way we can.

## INTERVIEW

*“A trade war would be a disaster for the world. It’s very easy to slip into a trade war.” ~Jack Ma*

*Paul Craig Roberts: US going all out on creating missile ring around China and Russia to deliver 1<sup>st</sup> strike without retaliation.*

By Catherine Austin Fitts

The [“Countering America’s Adversaries Through Sanctions Act”](#) rocketed through the US Congress at record speed in July, imposing sanctions on Iran, North Korea, and Russia. Faced with a veto override, an unhappy President Trump signed it into law on August 2, 2017.

The response was swift. EU President Jean-Claude Juncker threatened retaliation. The German Minister for Economics and Energy, Brigitte Zypries, declared the sanctions illegal and urged the EU to take counter-measures. Russian Prime Minister Dmitry Medvedev announced that the law had ended the possibility of improving U.S.–Russian relations and signaled “an all-out trade war with Russia.”

What happened to the US policy of maintaining global balance by preventing a close alliance between Germany, Russia, and China?

The policy appears set in reverse now, to ensure an escalating trade war. One alleged FBI whistleblower recently said of Mrs Clinton's desire for war with Russia, "She wants war with Russia because that is what her donations bought."

Has the entire US Congress been bought minus the two senators and three congressman who voted against the Sanctions Act? Can the bankers and the military-industrial complex order a war with their [control files](#) and campaign contributions the way you and I order take-out pizzas? It would appear so.

To help answer that question, I invited former Georgia Congressman, Dr. Cynthia McKinney, to return to the Solari Report to discuss the Sanctions Act and the unprecedented process that it was passed into law. This Thursday we will also publish to the public [Dr. McKinney's extraordinary interview on the US Constitution in the 2nd Quarter Wrap Up](#) as well as my discussion on how we might organize to enforce it.

## **ASK CATHERINE**

Hi Catherine,

....posting this video on your website?

<https://www.youtube.com/watch?v=CHzomi8WhgI&t=1011s>

This is an interview with Lynette Zang on a new crypto called ACC Chain which would digitize all tangible assets (ultimately including us!) in a central model .

Very chilling.

Thanks,

## TWO PROBLEMS:

Markets Nuimismatics – FTW Problem

Agree That Cryptocurrencies are potentially very dangerous

Securitization of everything also potentially very dangerous

Chinese hegemony is potentially dangerous

presentation does not make sense.

Particularly Chinese firm – ACC Chain- relation to state

China's role in SDR

Dollar weakness as global reserve currency

Very important to connect dots accurately – this does not do it.

I hope you're doing well!

Just saw an interview with Lynette Zang on Greg Hunter's Youtube channel today. She has a very interesting perspective on the global situation and seems to have her finger on the pulse of what I call 'The RED Pill' (real truth). She reports that there are LOTS of people taking major positions in gold. Would love to hear your perspective.

Her firm markets gold...gold great core position, not investment opportunity right now...

As always I'm looking to 'play the hockey puck where it's going to be' in looking for positive personal / business solutions to help / protect my family.

I listen to EVERY Solari Report at least four times and seem to hear something new each time.

Cryptocurrency bubble likely has more to go – just highly speculative and could lose everything. One way is to wait for an ETF and then jump in – question is how do you know to get out?

Catherine:

Can you suggest 2 or 3 books to help me understand the \$40 trillion that has been stolen, the financial coup d'etat and the financial harvesting of nations. Have read *Dillon Read and the AoSP*.

Most of the time I have for *reading* is the 10 hours I spend in the car commuting each week. Can you create an app that allows downloading the Solari MP3 programs to a smart phone to allow mobile listening? I mentioned this to your tech guy at the 21 Club meeting in NYC but I don't see that it happened. Coast to Coast does a good job of this.

I LISTEN ON MY IPHONE – BROWSER ALL THE TIME

Hope to do an app after launch 3.1

Hi Catherine,

I don't even know where to begin to express my adoration and/or not type pages of questions and queries. I first learned of you in the YouTube video and the Space conference presentation you did in 2014 at San Mateo. I was stunned, and you brighten my hope that change is possible. Hannity and so many others are frustrated that Trump can't make more of a difference and pierce the "Deep State". You are very courageous to speak out and keep us informed on so many subjects with risk to your own personal safety. But if your conversation about the missing Trillions and/or the 911 controversy became uncovered, the exposure could start to unravel the entire stupidity that our world is so enshrouded in? How do we get you on Hannity or your message in the "main stream" media? Rush Limbaugh?

CHANGE WILL COME WHEN WE LISTEN TO THE MEDIA THAT TELLS US THE TRUTH....

**Viral – consider the sex by e-mail story.**

The Fed and the Exchange Stabilization Fund need to be exposed or put out of business, but then what do you see replacing these mechanisms to restore a new paradigm in government and finance not just in America but globally?

Is there any chance that we will have a currency reset of some kind with the Iraqi Dinar and other global currencies or with the Cryptocurrencies such as Bitcoin etc? The 100 year old Fed and the “Deep State” will not want this to happen, but Eckhart Tolle suggests that we will see more unexpected changes coming just as no one saw the Berlin Wall coming down so suddenly.

I agree with Tolle – unexpected changes are happening and will continue to happen

IMO< Iraqi Dinar is a financial scam

Cryptocurrencies – prototype Mr. Global's digital currencies – ultimately will not create an alternative system – Presentation in September – Mr. Global will use to soak up lots of excess cash

\*\*\*\*\*

A big fan and admirer,

## Notes:

Some say that this speech got JFK killed? <https://www.youtube.com/watch?v=y8HTr-F-FVM>

**Model wide problem – read Marys Mosaic and Devils Chessboard**

This site is predicting US population will decline dramatically before 2025: I have sent the site to reporters but no one has vetted the reason this site would predict such an outrageous claim?

<http://www.deagel.com/country/forecast.aspx>

**Does not make sense to me.**

Catherine, what do you think?

Does Uber Car Service vacuum the stored information on a smart phone when a person patronize their service?

**Don't know – would put nothing past Uber**

On a list of problems facing the US, where do you place white nationalism? Sent from my iPhone

**Problem for Mr. Global – not a problem otherwise.**

Hello Catherine:

I forgot to say, if it's not too late could you please ask Cynthia what she thinks about this letter from Senator Nelson and what if anything should I do next. Also does she have an itinerary for the Unrig bus tour? I want them to come to Central Florida.

All the best,

Catherine

Greetings -

Does Basel III allow mortgage lien holders to change terms of an original note?

If one has outstanding debt on a mortgage (e.g. Adjustable rate with 2% annual cap, 5% lifetime cap) is there a risk of the note terms being re-drafted under Basel III or any other means?

What happens to ARMS when the Libor index goes away?

HAVE NOT LOOKED BUT DON'T SEE HOW THAT IS POSSIBLE UNLESS YOU WIPE OUT THE CONSTITUTION AND CONTRACT LAW

Thanks, will take a look

Hi Catherine,

I thought I had given up trying to figure out the best form of physical gold and silver to purchase but am curious your thoughts on this. I'm sure you have been asked this question frequently. Greg Hunter prefers U.S coins, Bill Holters not so sure about that. Tom Cloud says to sell your collectables and buy bullion, Ms. Zang implies just the opposite. I understand all the reasoning - cheapest premium, most recognizable.... but I am wondering what form you think the border guards prefer :) and do you like silver as something to purchase with your extra cash as much as most seem to?

**AVOID COLLECTIBLES/NUMISMATICS OR ANYONE WHO RECOMMENDS THEM. You can to buy 1 oz sovereign gold coins – for silve buy 90% silver or silver rounds. Buy the lowest premium to melt value – check out equivalents list on [silverandgoldaremoney.com](http://silverandgoldaremoney.com)**
