INTRODUCTION

Welcome to The Solari Report.

Today is Thursday, October 19, 2017

I am Catherine Austin Fitts and I am delighted th

THEME TONIGHT: Bad Manners & Missing Money

Pile on Trump – goal is to get under his skin, make him erupt, then get closer to proving he is incompetent. Like watching the Buzkashi-

buzkashi: Persian "goat dragging" a rugged equestrian **game**, played predominantly by Turkic peoples in northern **Afghanistan**, in which riders compete to seize and

They will keep doing it until he learns or they get him on an incompetency charge

Rep. Sheila Jackson Lee, D-Texas, asserted Friday that the 25th Amendment to the Constitution lets Congress remove "incompetent" presidents, and suggested that Congress use it as a tool to get rid of President Trump.

"Let me just explain," she said on Fox Business. "The 25th Amendment is utilized when a president is perceived to be incompetent or unable to do his or her job."

Brookings Institute - trying Obstruction of Justice

Pile on:

Biden and Kasich – team up and did a round of criticism

Biden – rounding up black people into prison – Nazi

Inappropriate behavior with Kids

Big Chair at University of Penn- If he is a pedophile, in my experience not the first pedophile or the first Nazi that an Ivy League University has sheltered for their friends at the CIA

Disgusting to watch while students struggle with student loans

How does Biden not know he can not pull the holier than thou bit – it does not work.

But it gets worse

George W. Bush – Attacking Conspiracy Theories and Fabrications

(same day as Obama – looks coordinated)

911 Truth goes viral, he and Cheney and their syndicate members will have to give back the portion of the \$21 trillion the Bush cartel stole – members in good standing of the breakaways

Thanks to all his money laundering and financial sanctions laws, the US should be able to seize their holdings all over the world, even from his huge estate in Paraguay.

Bushes were counting on Jeb and Hillary for protection – With the Uranium One deal blowing – both Bush and Obama are feeling exposed

Which is worse – 9/11 and War in Middle East or Trumps temper and thin skin?

Then off course, there is Obama

Gave the largest portion of the \$21 Trillion missing money and \$24+ Trillion bailouts a way.

But he has excellent manners – he is a smooth operator.

Trump is a bully? Well this gang of thieves Clinton, Bush, Obama have been bullying us for years – to the tune of \$150,000 in missing money and bailouts, more in rigged markets, NROI government, QE I, II & III, currency debasement – I could go on because it is endless.

If I have a problem with Trump he has been on the Make Israel Great Again Plan since April 1 and now we have weather warfare on Texas and Florida a literal fire war being made on California – killing Americans and it appears he is saying nothing.

He has bad manners? Yes, Would it be nice if he was better at forging coalitions to get things accomplished yes.

But – Trump did not engineer 9-11 or a lot of other false flags. Indeed he has tried to crack up the official reality so we could start to deal with them.

Trump did not engineer the financial coup d'etat – although his business was likely the beneficiaries of those flows and he hired Gary Cohn from Goldman – one of the chief engineers. – Clinton, Obama and Bush did that. Trump did not put us in Afghanistan and Iraq.

What do we care about substance or show? What do we care about? Entertainment or Reality.

The Smooth Operators are ganging up on the Bully. They are afraid that the Bully is going to implode the system and put them at risk.

The Smooth Operators have been engaged in a global crime spree – killing stealing and engineering millions of death. The average life expectancy of a woman my age without a high school degree has fallen 5 years since George H. Bush became

President, while Biden, the Clintons, the Bushes and the Obamas got rich engineering that falling life expectancy. IMO that is murder because you can indeed murder with a pen.

So the fact that these guys are standing up and expecting themselves to be respected and taken seriously is truly frightening. Because it shows you how divorced they are from reality

Give me a choice between a man who insults me and a man who steals \$65,000 of my money and engineers a bailout with another \$75,000 of my money and wrecks my neighborhood with the pump and dump of the housing bubble, my pension fund by engineering frauds and falling interest rates....and I can keep going on but it is going to add up to approx \$200,000 of money and if I have to choose between someone who steal 200,000 of my money or insults me, I will prefer the guy who insults me.

How ever that is not the real choice This may unfortunately be coming down to a choice between the guy who firebombed the World Trade Center and the Middle East and the guy who fire bombed California, and weather warfared Texas, Florida and Puerto Rico.

If it is happening in US airspace, the US is in command. This is not the Russia, this is not the Moslems, this is not the Chinese, this is not the Mexican drug cartels – this is our guys whether the US government or the Bushie Breakaways who can act with

impunity and the US military and intelligence are helpless to stop them. Take Your Pick

Either way it does not look good. If you don't know what a directed energy weapon is, now is the time to start learning.

As to what will happen to Trump? His approval rating is low so an endless series of politicians can win points by being critical of him.

That jeopardizes Budget deal, tax reform and Financial Reform

On Wednesday, the Chinese President kicked off the biggest and most-watched event in China's political calendar: The 19th National Congress of the Communist Party of China.

This twice-a-decade meeting is akin to a closed-door election, and will see President Xi formally granted a second five-year term as the party's general secretary and a new generation of senior Chinese leaders anointed.

In his opening speech, Xi stressed "national rejuvenation" but warned that China's development had been "unbalanced and inadequate."

FED POST

Trump interviewing

On 10/19/17 9:50 PM, Catherine Austin Fitts wrote:

Nick Brady went to Yale - So did George H. W. Bush. So did Mnuchin. Mnuchin and George H. W. Bush were both Skull and Bones.

Powell was always a Brady man - good soldier.

When they started flowing money out of HUD and DOD - money rushed into Carlyle - including for big China/Asia private investment Funds.

Powell who had been at Treasury under George H. W. Bush - was moved over to Carlyle at the same time money started to go missing. I have always believed their Asia funds at a minimum were part of the laundry

Now he is at the Fed and Mnuchin's top pick for new Fed Chairman to replace Yellen.

Something was so very profitable for the Carlyle guys...

From Powell's forms when he was approved as a governor:

He worked in the first Bush administration and at the private equity firm The Carlyle Group. He was also the richest member on the Fed's board with net worth totaling between \$21 million and \$72 million.

https://en.wikipedia.org/wiki/Jerome_H._Powell

Lots of protection of that missing money.

Since Cohn was a leader in engineering the flows and Goldman he is unlikely - too obvious.

Beginning to look like everyone made their bones in the financial coup stealing and laundering taxpayers money.

LAS VEGAS

Clearly multiple shooters

Unanswered Questions continue to grow making the official story look ridiculous- my favorite this week.

Where was the Mandalay Security team? – lets face it on a good day they could take out Portugal.

–Kymberley Suchomel, a survivor of the Las Vegas shooting who claimed there were multiple gunmen involved in the shooting, has been found dead. She was 28.

Suchomel was not injured during the shooting at the Route 91 music festival, and died suddenly in the early hours of Monday at her Apple Valley home, according to her grandmother, Julie Norton, who explained to *SeaCoast Online* that Kymberley must have died at some point during the four hours she was alone in the house.

Norton found Suchomel just after 8:30 a.m. when she arrived to care for her 3-year-old great-granddaughter. Suchomel's husband Mike had left for work earlier that morning at 4:30 a.m.

DO NOT LET THE PEOPLE WHO ARE STEALING FROM YOU DEFINE YOUR HEROS FOR YOU. IT IS A SURE FIRE RECIPE FOR FAILURE.

Would America have won WW II if the American soldiers would only obey General Patton and General Bradley on the days that Hitler said nice things about them?

You don't let the people who are trying to kill you appoint your leaders and define your heros.

Let's Go to the Movies

In Let's Go to the Movies, I will review the TV series *Game of Thrones*, which just finished its seventh season. The series explores the brutal nature of power politics and war. Control in our society has always been based on physical control. However, decades of peace managed with more subtle financial and legal controls in the developed world have resulted in a general population who often does not understand what it is like to live with violence in our day-to-day lives. *Game of Thrones* is a mythical reminder of that violence and how it plagues the inter-generational dynasties managing life at the top.

Implication seems to be – only be peace when on domineering power consolidates into the Game of Thrones equivalent of One World Government

Control has always been maintained with physical force. Hidden behind many layers of more genteel control systems. Process of coming out of the trance started with 9-11. Successful Harvard Business school investment banker – Oh, now I get the Popsicle Index – for the first time fathomed that she was not safe. After all the various false flags, mob wars and the attack in Las Vegas and the firebombing of California, I dare say we are coming out the trance that many decades of peace in North America created.

Interesting – lots of battles won with dragons breathing fire down on the enemy of the queen who commands the dragons loyalty.

INTERVIEW

“Culture is the integration of the divine in everyday life.” ~ John Edward Hurley

By Catherine Austin Fitts

This week on the Solari Report, my discussion with Dr. Joseph P. Farrell on the most important *News Trends & Stories* of the *3rd Quarter Wrap Up* continues with Part II.

In Part I, Joseph and I covered the accelerating economic, financial and geopolitical change. We discussed Joseph’s new book: [*Hess and the Penguins: the Holocaust, Antarctica and the Strange Case of Rudolf Hess*](#). We also touched on the [Dr. Joseph P. Farrell Virtual Pipe Organ Crowdfund](#).

This week we cover five areas – culture, science & technology, unanswered questions, go local and inspiration. Joseph’s understanding of the importance of culture to accelerating change always inspires me.

Make sure to access the *News Trends & Stories* section of the *3rd Quarter Wrap Up* web presentation linked from your subscriber links. Our web presentation includes:

- **Control 101** – During the last week of the *3rd Quarter Wrap Up* roll out, I will publish my overview of how the centralized control systems works. If you want to understand what is happening in the financial markets and geopolitics, it is essential to understand how the people participating in the transactional ecosystems are controlled individually and collectively.
- **News Trends & Stories** – Our *News Trends & Stories* editor Brad Eddins has done an outstanding job of

presenting top trends, stories and videos of the 3rd Quarter.

- **Financial Markets** – a roundup of market and commodities charts from the 3rd Quarter.

In *Money & Markets*, I will discuss the latest financial and geopolitical news, including devastating fires in California, tax reform, and missing money.

ASK CATHERINE

HI Catherine – Do you have recommendations on the best place(s) to store precious metals, primarily silver? Ideally I'd like to keep it in my possession but don't feel comfortable having large amounts at my residence. In your opinion, where are the top 3 places to store physical PM? Thank you.

Have not done a recent full search:

Good SWISS BANK

Das Safe in Vienna

CNT Depository in Massachusetts

Fidelitrade in Delaware

BMG Bullion in Canada

I am comfortable with a safe deposit box at a good community bank or credit union

Hi Catherine -

I know you're doing a pension fund overview in a couple of months and found a couple of articles you may find interesting. California recently increased gasoline & car registration taxes for 'street improvements' but my guess is to shore up CALPERS (we already have an 8% sales tax & a carbon / global warming tax on every gallon of gas). We are already \$1 per gallon higher than Arizona (all in state taxes) and we are very car-dependent here.

Between CALPERS & CALSTIRS (Teachers fund) there are about 2million families currently receiving benefits and probably more than that number who are expecting to receive future benefits. My guess is that this is NOT going to end well.

Personally I'm moving to Texas next year

All the Best!

Hi Catherine –

I don't remember a time when we've had so many UN-natural disasters ... Hurricanes with 51 " of rain (Harvey), then Irma

in Florida, then PR getting destroyed by TWO hurricanes, then the HUGE fires in Northern Cal (5,200 homes destroyed) and now a hurricane hitting Ireland.

Then the Vegas massacre and all of the weird stories of disappearances, witness murders, erased cell phones and the Sheriff acting REALLY stressed (with the always present FBI close by).

Now its Harvey Weinstein everywhere (which seemed to kill the Vegas follow up.)

Why do you thing the Weinstein story is front and center, since everyone knows this has been going on for many, MANY years?

WHITE OUT – HE IS BEING USED BECAUSE 3.0 GUYS CONSIDER HIM 2.0 AND EXPENDABLE.

HE IS NOT SUFFICIENT SO GOING TO CLINTON AND URANIUM DEAL...will probably not get too serious here unless they have to INDICT to get the necessary white out

BUSH Scream this week shows they were counting on Clinton air cover – now in real trouble.

Things are accelerating and I think we are definitely thru the looking glass, Alice.

Love your insights and leadership! Thank you!

Dear Catherine Austin Fitts,

I need your help, but first I must pray, and do so formally and explicitly.

I pray to The Living Son of God, Lord Jesus Christ that I and everyone I "know", including Doctor Sponaugle and his family, remain 100 percent free of evil or manipulation by those who wish to subvert the sovereignty of the mind, body, soul or person of any individual. Regardless of the methods they choose to do so, I forbid their negative influence on or near my person, on or near my family and friends, and on or near any person under the treatment of Doctor Sponaugle, including himself and his loved ones, in the name of my Lord and Savior Jesus Christ. I pray for the health and safety of all those listed above, in addition to the health and safety of Catherine Austin Fitts, Joseph P. Farrell, and all their employees, friends and family in Jesus Christ's name. Amen

I also pray in Jesus Christ's name that this letter travels swiftly, unimpeded, and unaltered to its intended recipient, Catherine Austin Fitts, and/or someone that can reach her. I pray that it remains unreadable by any whom might wish

harm to any of the parties involved, in Jesus Christ's name, Amen.

Probably not the way many of your "ask Catherine" messages usually begin, but I had to cover all my bases as I am quite desperate and I do need your help. Maybe just maybe, praying for such protections, will act like a barrier, allowing this letter to reach you. I can only hope.

I am obviously a subscriber to your website, albeit newly subscribed, but I have been a member of Joseph's website for something like 4 years now.

Introductions aside, what if I were tell you I was the patient of, have worked for, and have come to know over the years, a doctor whose ideas and practice were light years ahead of mainstream medicine? Like Nick Gonzalez, this is a person that is a thorn in the side of the powers that be or may have been, (the jury is still out on the Trump administration in my opinion, but I still have hope.) Like Nick Gonzalez I fear he has become a target of whomever has possibly and allegedly killed up to 70 alternative health physicians these past few years. For some very significant reasons that I have discovered, but cannot elaborate upon in this format, I believe he has come under the very same crosshairs of Dr. Gonzalez. So my question to you is, what if you could somehow prevent the next doctor death?

The Doctor I speak of is Dr. Marvin Sponaugle, owner and proprietor of Sponaugle Wellness Institute. He truly is a miracle worker, and the most gifted physician I have ever

met. I have seen him bring countless patients out of wheelchairs, I have seen him make well countless people that were let down by the mainstream medical establishment, some having been told they only had a few months left to live. His clinic is quite literally one of those extremely rare places where those whom have been to the likes of the Mayo Clinic, Cleveland Clinic, John Hopkins, etc. can finally obtain relief. For example, one girl I am friends with had been to 22 residential facilities prior to her arrival here in Tampa.

I, myself, completed the New York/New Jersey circuit, inclusive of Beth Israel, Columbia, and one of the "top" Lyme doctors in the Lyme community prior to my arrival in early 2014. I have been sick sick since 2008, but in truth have been ill my whole life, though it was not until 9 years ago that it began to affect my body and mind so drastically that my normal existence was upended. On and off for 6 years I saw countless doctors, receiving diagnoses that ranged from fibromyalgia and chronic fatigue, (both symptoms, neither a diagnosis) to one doctor's moronic assumption that I was depressed and drug addicted because I was a closet homosexual that couldn't face reality. Let me assure you, I am not a homosexual and my illness was definitely not psychosomatic. I suffered from Lyme disease, its numerous coinfections, on top of substantial mold and petrochemical toxicity, all of which had traveled to my brain and created havoc. Along the way I was prescribed opiates, which did provide a pseudo form of temporary relief, but once embarked upon that slippery slope I began to self medicate, always seeking a means to calm my neuro-excitotoxicity with whatever I could get my hands on. The drugs allowed me to

feel "normal," to get out of bed and have something of a life. Intrinsically I knew downers, such as opiates, returned my brain to a somewhat normal functional state. It wasn't until I saw Doctor Sponaugle that I was educated about the realities and extent of my illness, that I realized I wasn't just an addict or all in my head like everyone said, I was, in fact, very very ill.

By the time I arrived at Sponaugle Wellness I was on over 30 pharmaceuticals, the majority of which were prescribed by the so called "experts", some which were not. I am actually his longest running continuous patient, not exactly something to brag about, but when someone is as ill as I was with the genetics I have, it takes time to remedy that situation. I just thank God that I am fortunate enough that my family could afford such long term treatment and have not given up on me like countless others I have known.

Everyday I meet people whom have been let down by such "prestigious" establishments and have arrived at Doctor Sponaugle's clinic as a last ditch effort to obtain good health. He truly is an end of the line destination, both because most patients have been everywhere else there is to go, and because once they arrive most realize they can rest easy, he has provides the patient with answers when no one else could.

I am cutting this message short because I was just visited by two gentlemen, they pulled in next door to my condo, as I sit here writing this letter in my garage on my iPad. These men claimed to be looking for a neighbor that moved out long ago, they worked for AmeriLife and

offered to sell me life insurance. Too many coincidences, a message being sent I believe. As I said before I could not elaborate upon circumstances, but I am sharing this new info now because I fear my life may be in danger. I will attach the business card of said individual and give you his license plate number, I will also send an email without the photos in case your server prohibits attachments.

DON'T KNOW ENOUGH TO KNOW WHAT YOU SHOULD DO - informed insight requires a great deal of understanding of the specifics. – BUT FLORIDA IS A HOTSPOT. REALITY IS I WOULD MOVE – Would not stay in Florida, I would get to a state that has got a much better record.

Need spiritual – what I would call angelic protection. – don't know your spiritual practice

Hi Catherine, In your latest podcast you postulated that maybe the mayors and local government officials were being threatened to encourage them to go along with something, or their towns could also be hit by "D.E.W" . I think California SB649 your answer! Also as to Vegas event, as you remember on 911 there were multiple drills running at the same time. The MO appears to be the same, drills plus live action which caused the slow response and confusion. Keep up your great work! God bless you

And, fluoride is a far worse neurotoxin when it is combined with aluminum (chemtrails) alzheimers... I really think this is what is dumbing down the population... they cannot read people, understand the missing information that is not being told in the news, and recognize lies. Mike (health ranger) in this doc is pretty right on...
